Board Flight '78 to see inside the Lew Wallace Hive. As we enter the hive, we hear the busy hum of 2200 self-sufficient, independent Hornets all doing their own thing and making contact with the other anthropods. We're flying out in all directions, collecting friends, knowledge, and social attributes, yet working as one

within our academic community. While some are able to glide through each stage of development, others must fasten their seat belts for turbulent weather ahead. Storing knowledge in the honeycombs of our minds enables us to cope with sticky situations in the future.

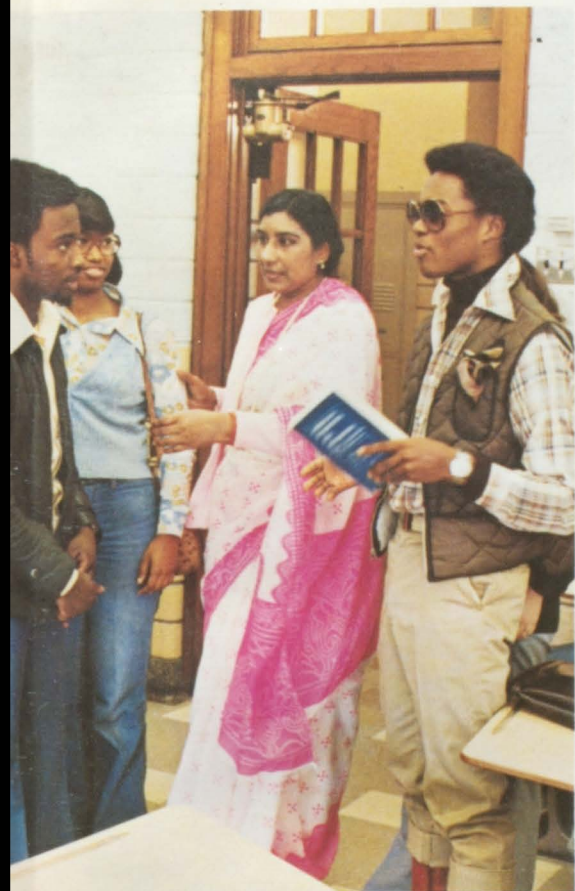

Working and building together for the benefit of our school by carrying our own weight suggests our acceptance of responsibility in the adult world. We're the paragon of the average All-American hard-hitting Hornet. A Wallace student by any name would still be a Hornet.

Opposite, top: The outer shell of the hive conceals the buzzing activity within. **Left:** Arthur Rodriguez and Terry Mills escort Senator Birch Bayh to his car after he had spoken at an all-hive assembly presented by Senior Honor Society. **Right:** Mr. Chaney discusses an important point before one of

rita Villagomez prepares for her Mexican dance during the cultural celebration. **Bottom right:** Alice Hernandez, Beth Bishop, and Cindy Wislo congratulate their classmate Adele Arciniega, the 1978 Junior Basketball Homecoming Princess.

As social creatures in the insect world or the people world, Hornets are highest on the social ladder, always striving for prominence. Soaring to the heights requires growth in character and intellect. Getting involved in sports, and class and club activities, as well as book-learnin' nurtures this maturity. It's a sort of

change in flight patterns. You've got to let your wings hang down once in a while!

After a wing-splitting day at school with studies, there are always parties, dances, and sports events to attend, besides the quick trips to Mac's. Some of us even have part-time jobs to supple-

ment hive expenses. Then, of course, there's still time for resting your weary stingers.

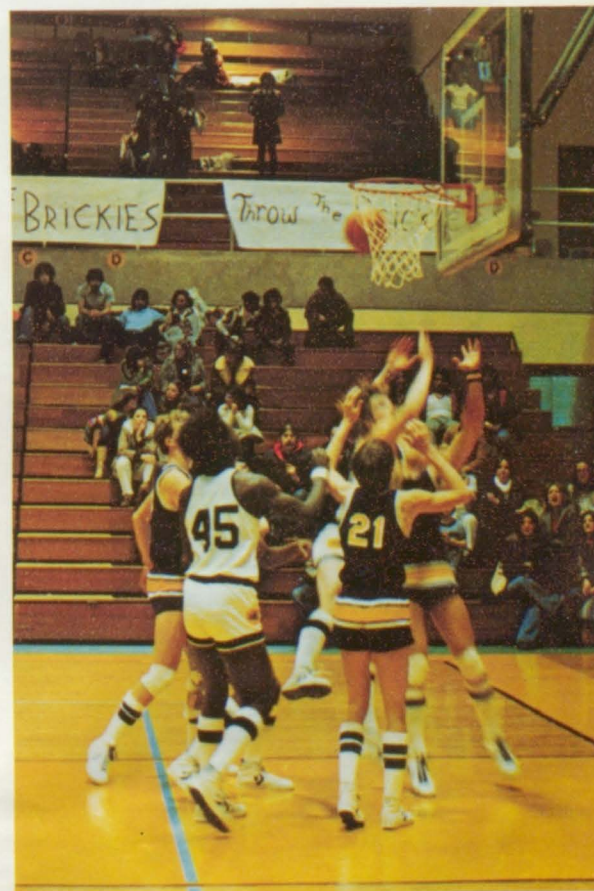

As we clear for takeoff and make a beeline back to the hive, we emerge as the truly **INCREDIBLE FLYING MACHINE**.

Competitions of 1978 Homecoming:

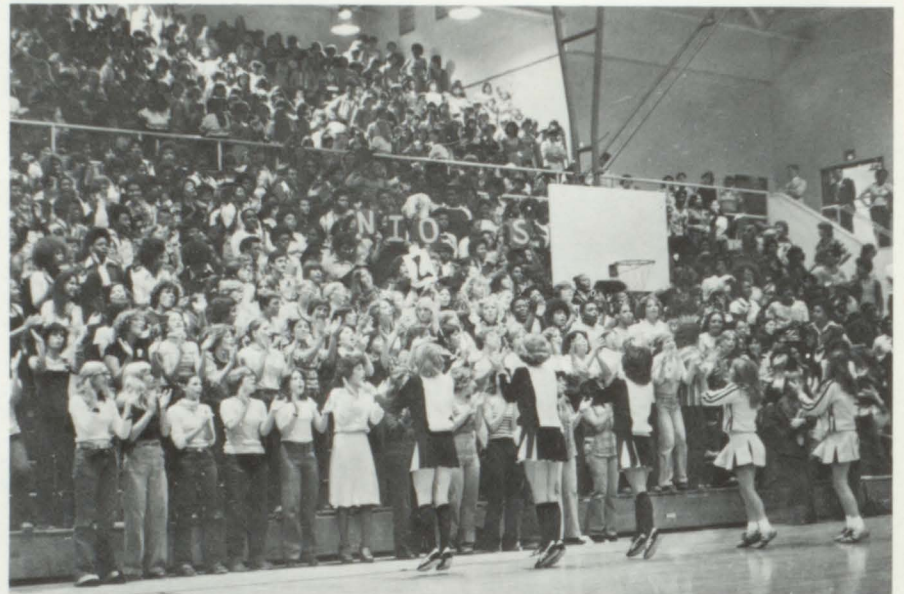

Class of '79 Sweeps Competitions

"Oh we're from Wallace High School, and no one can be prouder, and if you can not hear us, we'll yell a little louder!"

And yell we did. Cheering and good spirits prevailed during the 1977-78 Homecoming. At the year's first pep rally, the class of '79 took control early by first winning the spirit stick by day and the float competition with the theme of "Ride 'Em Hornets" by night.

Gladys Castillo became one happy girl as she was crowned Homecoming Queen. Her court included Joyce Blaney, Diane Capp, Sue Tkacs, and Tammy Wislo. The one disappointing moment came when the final score against the Munster Mustangs was realized; 38-6, their favor!

Top: Tammy Wislo and her escort Mark Hamilton wait for the traditional parade down Broadway to begin. **Center:** The Juniors show how to win a spirit stick! **Below, left:** The junior float, with the theme of "Ride 'Em Hornets", helped the class of '79 buzz to victory in the float competition. **Below, right:** Gladys Castillo shows her disbelief as Hector Rivera and John Stefanelli watch her being crowned 1977-78 Homecoming Queen. **Opposite, Top:** Juniors Eugene Shannon, Cindy Osika, Tom Trinidad, Carl House and Cindy Wislo wait for the naming of the winners of the spirit stick. **Center, Opposite:** Princesses Diane Capp and Sue Tkacs show off their bouquets they received during the crowning ceremonies. **Bottom, Opposite:** Princess Joyce Blaney talks to some friends after the crowning of the queen during the half-time festivities.

HORNETS SWARM

How about going to McDonalds, Burger King, or maybe Kentucky Fried Chicken?

Twenty-two students and faculty did—in London! London is getting very Americanized. Some American programs are broadcast in London. "Star Wars" and "Close Encounters" are two very popular movies there, too. Recently X rated (by British standards) "Saturday Night Fever" made its debut. We were fortunate enough to be at its opening and saw John Travolta, Keith Moon, and Barry Gibb. Although the movie just premiered, its music had been playing for quite awhile in many London discos.

Transportation in London was never a problem. Need a taxi? Just walk outside and call. They're usually easy enough to find. Or take a little walk to the nearest underground station and ride the "tubes." On a nice day, a short walk and about 25 pence (\$.50 in American money) will give you a ride on a double decker bus.

A typical day for us "tourists" consisted of sightseeing and shopping. Our nights were festive and included seeing three plays, "Kings and Clowns," "I Love My Wife," and "Murder at the Vicarage," or seeing a movie, or checking out the discos.

London people seem to take pride in their city. We very rarely found litter in the streets and gutters. They also have beautiful parks where dignified bobby's patrol. London is a beautiful place to visit or live.

HORNETS RALLY TO "DUNK THE BRICKIES"

Better late than never proved true as the 1978 Basketball Homecoming festivities got underway two weeks late.

After a mini-blizzard cancelled our plans for a victory over Valparaiso, we waited and stung the Hobart Brickies with a 58-48 victory.

Paula Clinton was crowned Homecoming Queen, and underclass Princesses were Adele Arceniega, Junior Princess; Dedria Dilosa, Sophomore Princess; and Tangie Turner, Freshman Princess.

The mini-floats, displayed the labor each class had used, with the seniors winning the competition with the slogan, "Dunk the Brickies".

Underclassmen displayed popular themes also, as with the Freshman float entitled "The Force is with the Hornets", the Sophomore float "Bake the Brickies", and the Junior's theme "Hornets can't Bear Defeat".

Students, teachers, alumni, and parents were on hand to rally the team to victory.

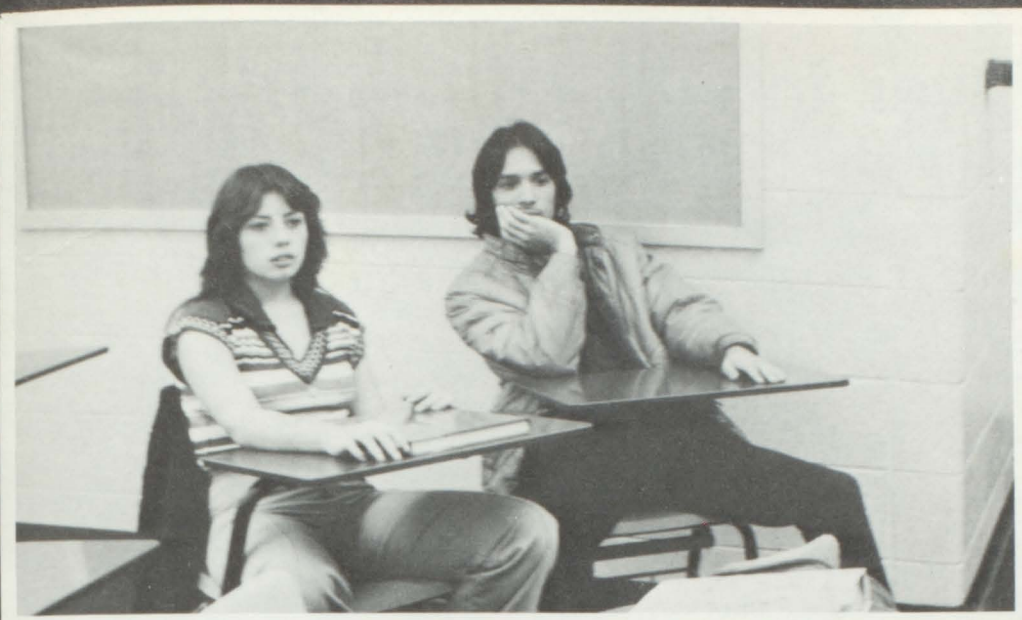

Far left: Cheryl Hamilton, Maria Vasquez, Dedria Dilosa, Jane Blaney, and Kathy Dumas wait expectantly for the Sophomore Princess to be chosen. **Center left:** Adele Arcineiga is escorted by Mark Vucekovich before she was chosen as Junior Princess. **Bottom left:** The Freshmen borrowed a

You've Got A Friend

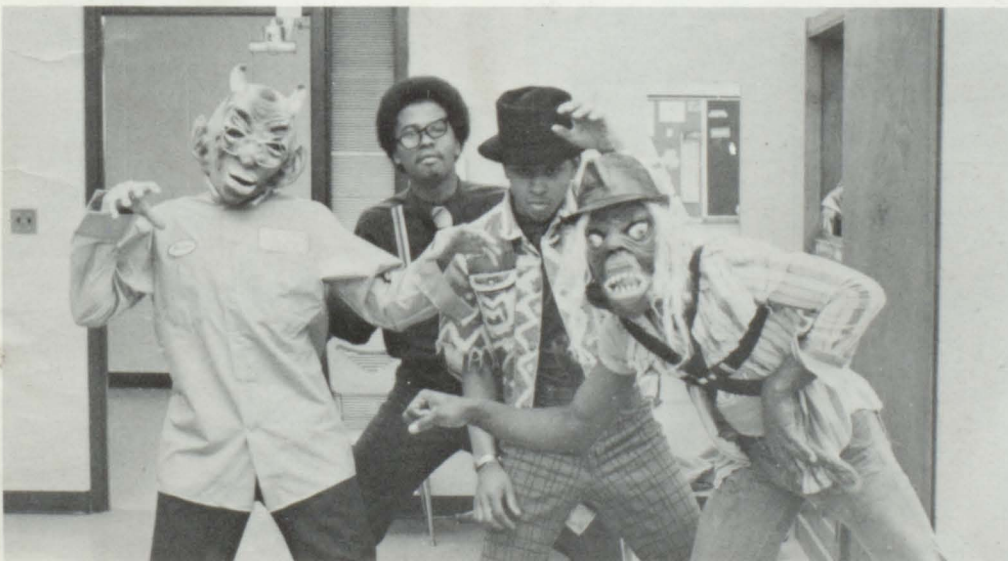

Two is better than one . . . Two's company, Three's a crowd . . . Any way you look at it, it's nice to have a friend. Whether it's acting like a clown, or quietly thinking, anything is better when you have a friend to share the time with.

Hornets get ... the Force!

The 1977-78 year will long be remembered for its unique crazes. Science fiction movies, vans, skateboarding, biking and arcades were just a few.

"Star Wars" and "Close Encounters" were two very popular movies. "Close Encounters" made us wonder if "We are all alone". And "Star Wars" brought such characters as the Wookiee (opposite bottom left) Darth Vader (Standing with Lew Wallace student Jim Smolinski) (Lower); R2D2; C3PO; Princess Leia; Hans Solo; and Luke Skywalker (Border).

Vans now are made for comfort and style. They're handsomely decorated, with beautiful scenes on the outsides and carpets on the insides. (opposite top).

Not everyone travels in vans. Bikes are still quite popular. (lower left).

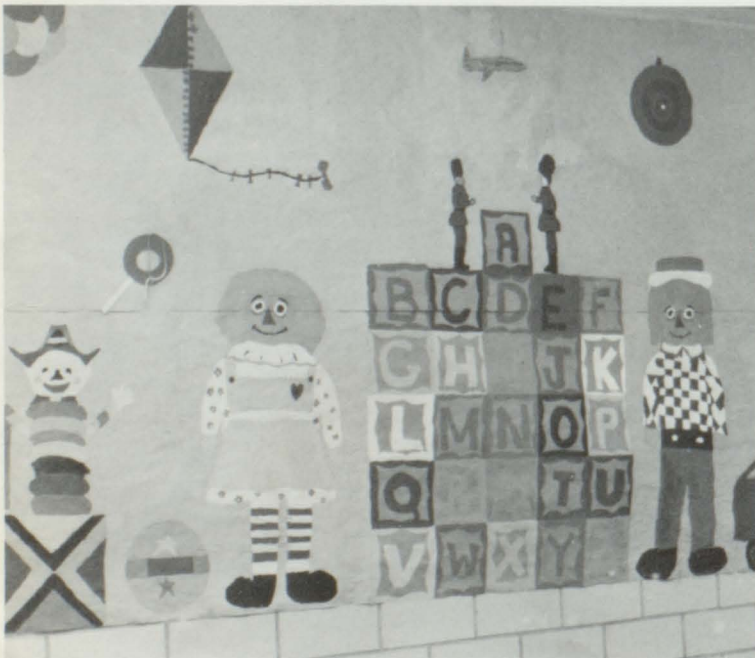

Another popular form of transportation is skateboarding. This year its been made one of the most popular sports. (opposite lower right) (Middle left) Bad weather? Go to the arcade, and challenge one of the many pinball machines. It's a nice way to spend an afternoon. (left)

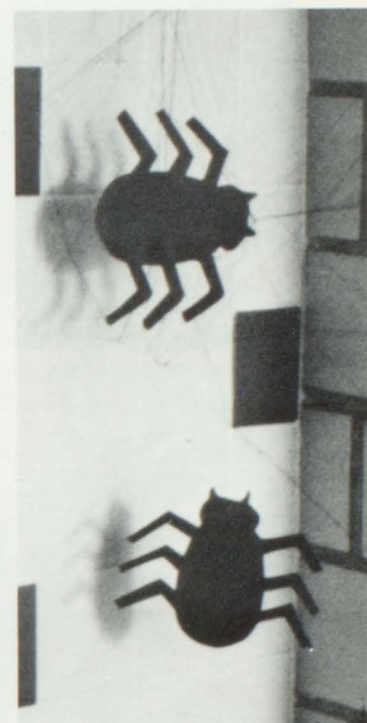

Juniors win hall competition; tie Olympics

Confetti, crazy costumes, and murals crowded the halls as each class competed against each other in the Spirit Week festivities April 17-25. Monday the Freshmen donned diapers and bottles as "Babes in Toyland" for their hall. The Sophomores pulled out old Halloween costumes and floated through "Sophomore Haunted Hall". Junior's prize winning hall, "Don't Touch That Dial", dealt with crazy commercials and the people in them. Seniors mosed down to the alcove to "Senior City", a spinoff of the wild western days.

Money for SOS (Save Our Schools) was raised through candy sales and the student olympics. In a close race, the seniors pulled their way to victory over the Juniors.

One of the special events taking place during the Spirit Week was the Student-Faculty Basketball game which took place on the last day of the week.

The event was sponsored by the Senior class as a fundraiser for the Prom. Student and teachers were given a chance to compete against each other on an even basis. The teachers even went as far as to organize a cheering block made up of students with Mrs. King in charge.

All of the cheering proved not to be in vain when the final score was realized; 54-53, in favor of the faculty team!

Bobby Socks and Grease Take Over

Get out the grease, slip on your saddle shoes, the Fifties have returned!

Rapping up Spirit Week was Fifties Day in which students dressed up fifties style. Throughout the day, bobby-socked boogi-ers and leather jacketed greasers could be seen all around the school. The styles of that time were relived with leather jackets and white t-shirts, poodle skirts and sweaters, greased hair and pony-tails. **Top Left;** Scott Anton and Debbie McCleod were among the many who dressed up. **Top Right;** What are fashions coming to? **Middle Left;** Jill Wagner, hair in pony-tails, and wearing a sweater, helped make the day a success. **Middle Right;** Nancy Schutz and Tracie Samson chat during lunch hour. **Bottom Left;** Jim Smolinski combs his hair by his wheels. **Bottom Right;** The "Gang"; **Front;** Linda Davis, Adele Arcinega, Sue Marks. **Back;** Alice Hernandez, Pete Pangatides, Denise Villinueve, Mila Matan, and Dan Avalos

Special Students Compete For Ribbons

Special students who ordinarily don't get a chance to participate in extracurricular sports are given the chance to in the Special Olympics.

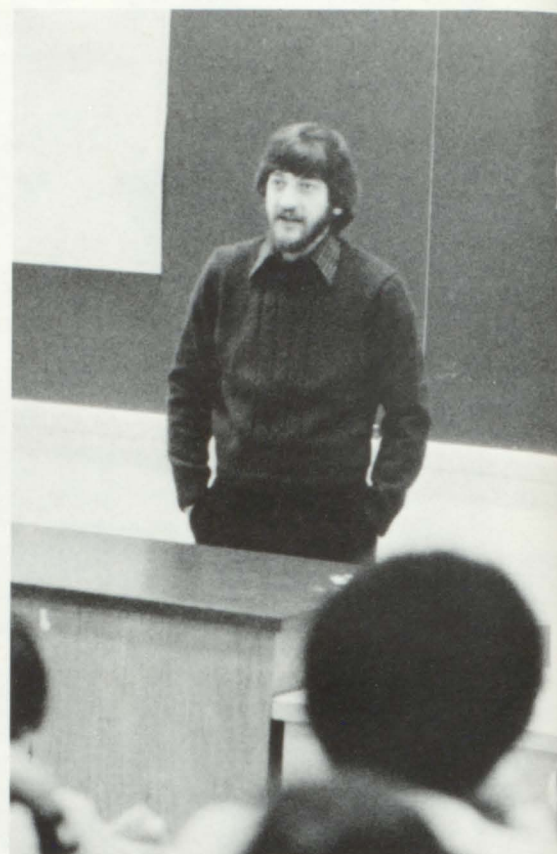

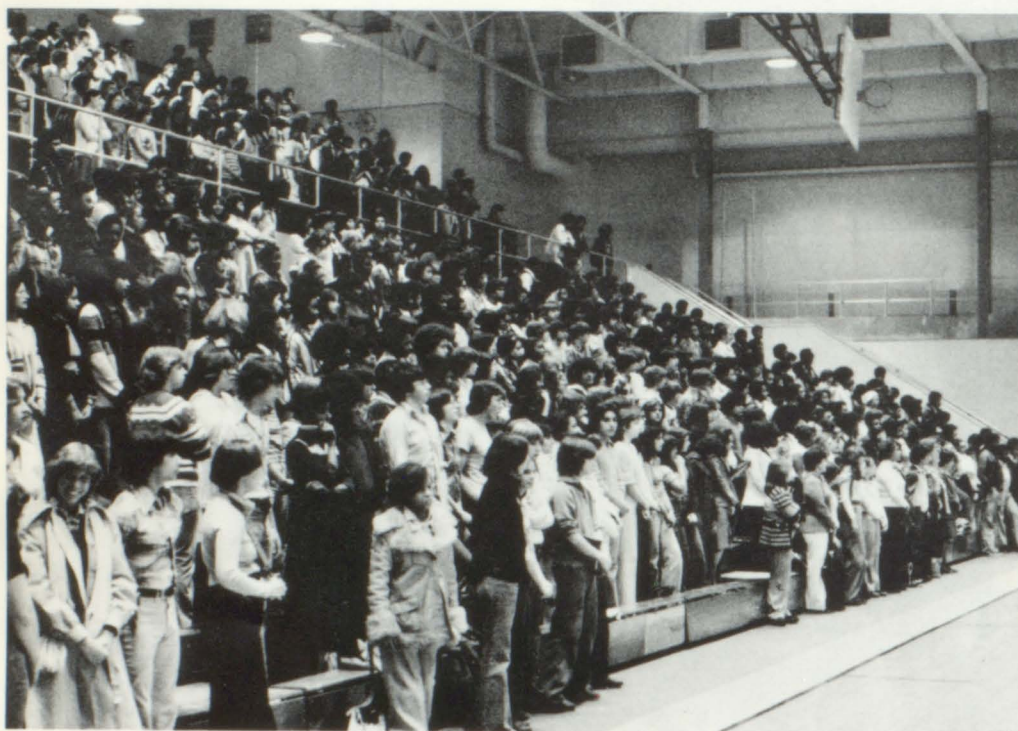

Long jumps, races, and other types of events were among those in the field of competition. The annual city wide event was stopped from being held in the stadium because of rain and was therefore moved to the Polk gym. Various classes were allowed to sit in on the competitions and urge on the participants.

After all of the events were finished, the winners proudly displayed their ribbons, although this was one meet where everyone was a winner!

During the Cultural Week celebration students were reminded of the Melting Pot quality of America.

Throughout the ethnic week the students enjoyed such things as slides from India and China, and movies on Iceland, the Sahara, Japan and Taiwan. Guest speakers talked about Bolivia, Russia, East Asia and London.

Other Activities included a program "America Laughs; The 200-Year History of Humor" with M.J. Quinn from "Saturday Night Fever".

The teachers enjoyed delicacies from far away places when the Russian Club sponsored the Ethnic Luncheon.

The finale of the celebration was the all-school assembly at which many students performed ethnic dances. Various clubs also presented performers who danced some ethnic dances. The guest speaker at the assembly was Dr. Edward Zivich of Calumet College, who spoke on ethnic influences of the Calumet Region.

Students Go In Kicking;

"Ready, aim, shoot" may sound easy enough to do, but when you're on the back of a dancing donkey, it takes on a new challenge!

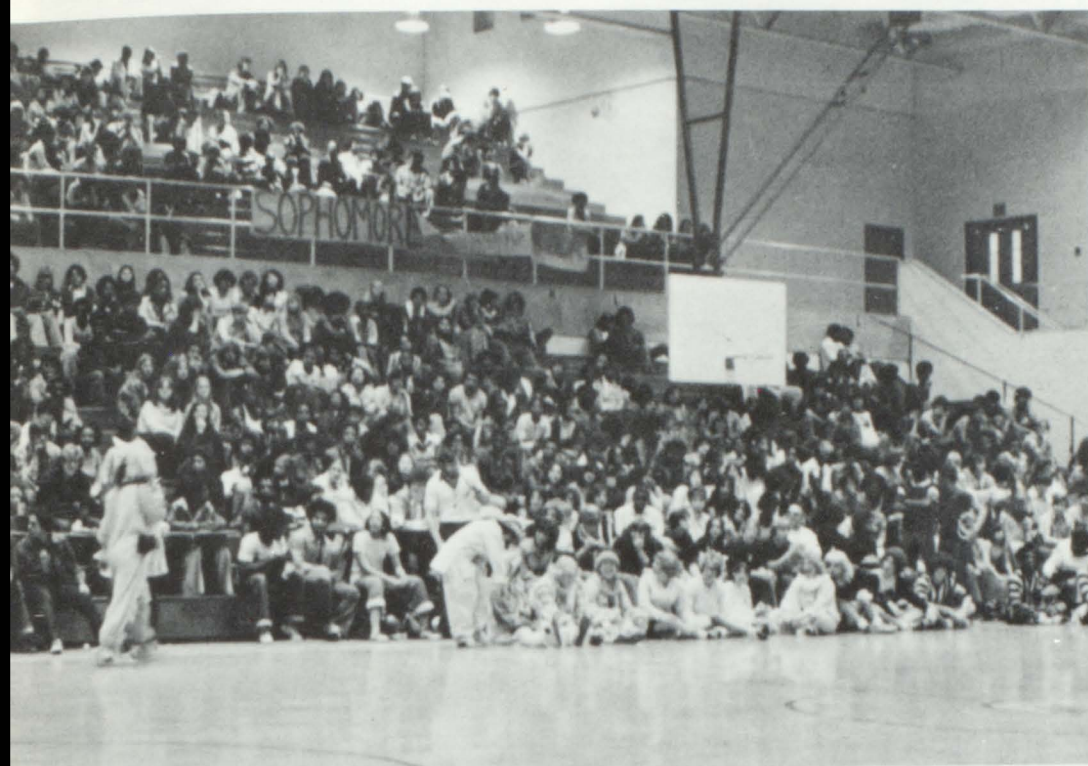

This year one of the Prom fundraisers was once again the Donkey Basketball game sponsored by the Junior and Senior classes. Clowns and "cheerleaders" joined in the event along with the clean-up crew!

Half-time festivities included "Miss Donkey Ball" where one lucky cheerleader was crowned Queen for a Day! Also included was a Donkey-Diapering contest which was won by the Freshman class, with endless talents!

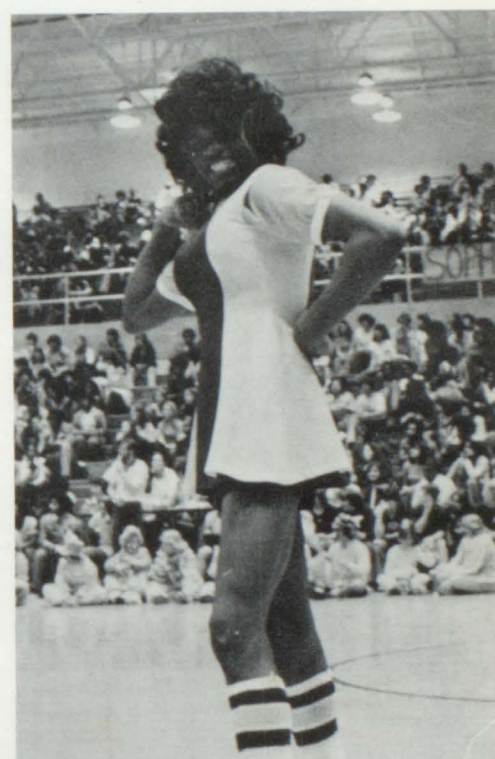

The class of '80 won the final game against the seniors to become the Donkey Basketball champs of '78.

Students relax with unique pastimes

When the school bell rings at 3:30, students head for home to relax and unwind and work with a favorite hobby. You can find students under cars, on top of skateboards, in a chair with the latest book, or in the air flying a plane.

Look! Up in the sky! Is it a bird? Is it a plane! Yes—it's Scott Samson! While other guys are out changing tires or worrying about their car's oil, Scott wonders about his altimeter or the next prop job on his airplane.

Scott finds flying an agreeable way to spend his spare time. He flies at least twice a week out of Porter County Municipal Airport in his plane, a Cessna 150. Scott recently acquired his pilot's license, and he finds flying at night very interesting.

"The farthest I have ever flown was on a trip to Lafayette. I made several stops along the way to towns like South Bend. I just like to get in my plane and go . . ."

Flying relaxes Scott, and he had to go for training to solo in his plane, which was a gift from his parents.

"When you first are learning how to fly a plane, you have to have a certain amount of hours of instruction before you can fly solo, or by yourself," he said.

Just as interested in planes, but on a smaller scale, is Sophomore Joe Subartowicz. Joe prefers a hobby that can get him into pretty sticky situations sometimes.

"Three things are needed if you want to make a good model: (1) patience, (2) perseverance, and (3) a quiet room," said Joe.

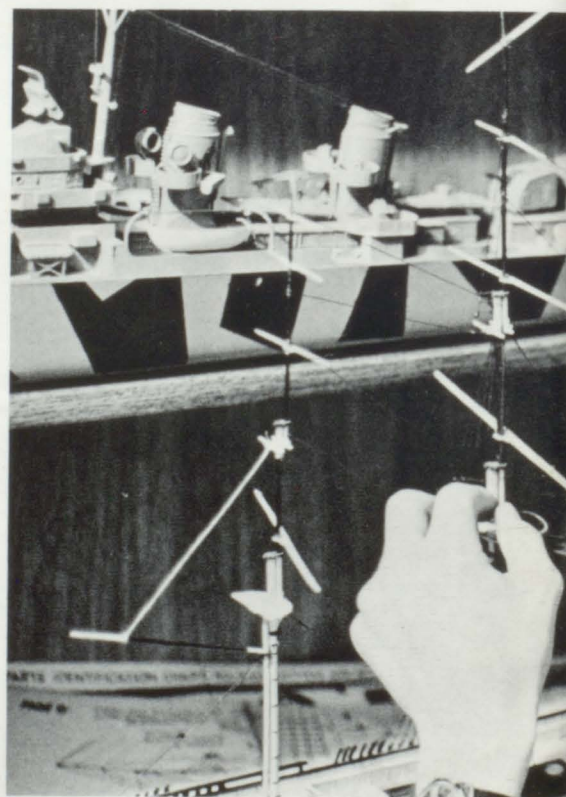

Joe has been building models since his father started him at the age of 11. His favorite models are of ships and Joe spends about 15 days on each model.

"The string that is put on to make the rigging for the sails is the hardest of all, but the finished product is beautiful to look at," Joe added.

His favorite model was made 16 years ago, and was found partially assembled in his grandparent's home. Joe says the model, which is a replica of a battleship used in World War II, was very difficult to put together.

"The older models are very difficult compared to some models of today that snap together in three parts," he replied.

Joe also works with miniature racing cars, models of cars, and airplane models. When he is finished with the airplanes, he takes them out to a vacant lot

and flies them.

Junior Byron Benedyk enjoys entering the world of adventure, crime, and suspense. Byron has been collecting comic books for 8 years.

"Since the nostalgia craze, comic books have become very popular. I have collected over 1,000 books," said Byron.

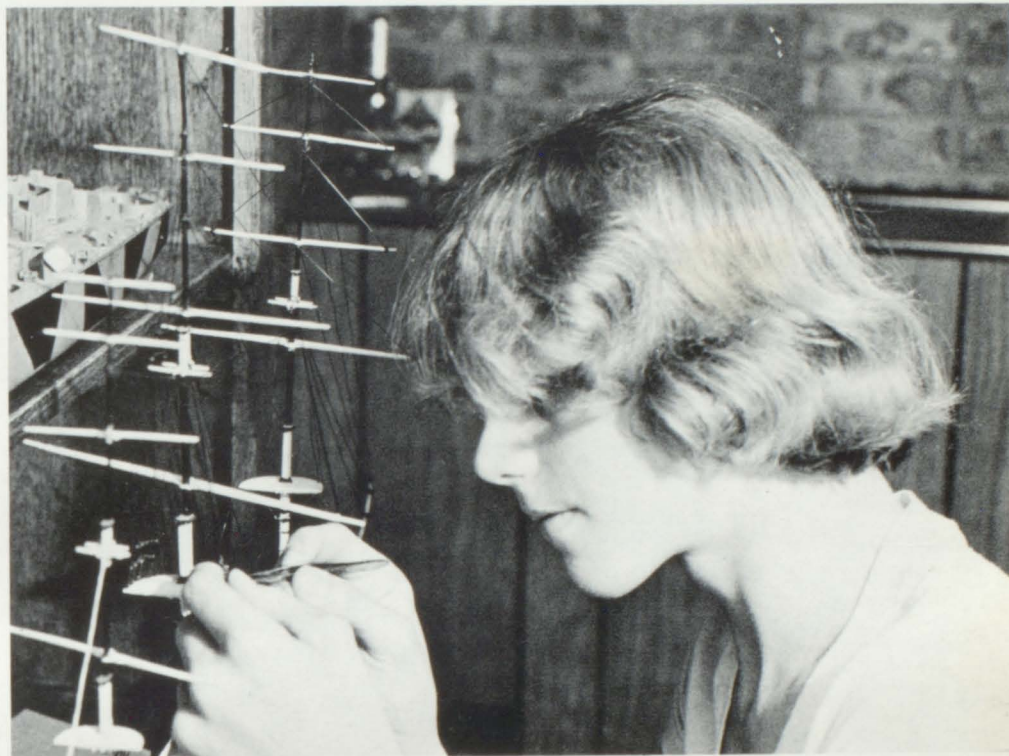

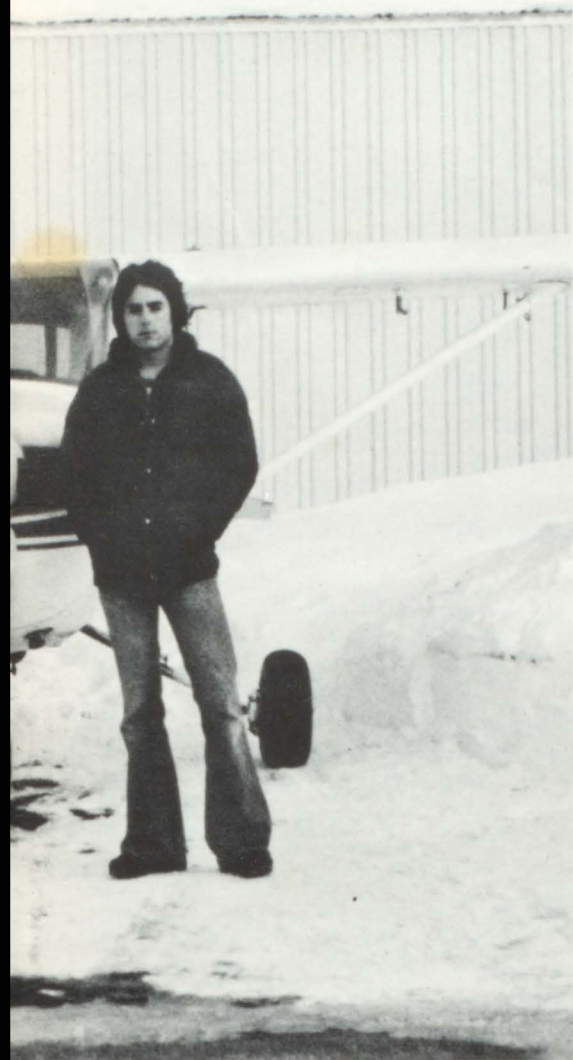

"Old comic books are worth a lot of money. I know of a comic book worth 5¢ twenty or thirty years ago and is now worth \$350. I have books that would sell for 50¢ up to twenty dollars."

Byron received some copies of books from friends with whom he traded. He prefers to acquire older books from collectors who advertise in comic books,

and he orders those from the mail.

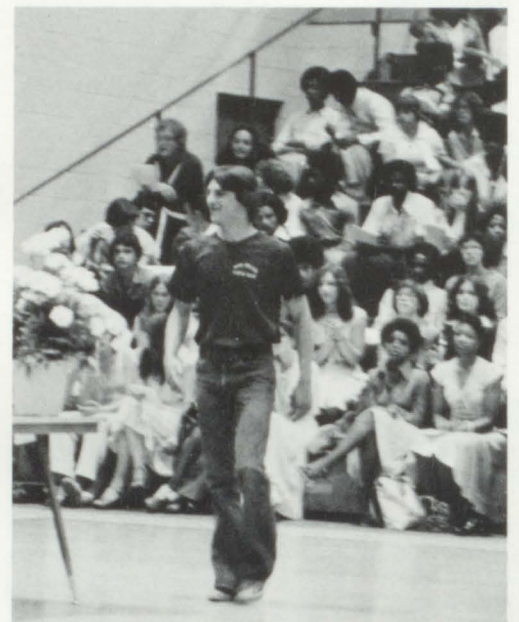

The favorite characters that Byron regularly reads are Batman and Spiderman.

"I like Batman for 2 reasons: (1) he has no superpower and (2) he relies on his wit and physical training to survive. Secondly, Batman stories are mostly mysteries and Batman is the world's greatest detective, and I find the books as interesting as an Agatha Christie novel. Spiderman is a teenager who experiences the everyday problems I do, and still finds time to fight the bad guys. I can really relate to the characters," Byron added.

Students Support Community Effort

One of this years most successful activities was the "blood drive" sponsored by the ROTC as part of a community project. "Brave" students went through anxious moments before blood could be taken. Medical history was obtained (**top left**), as well as sample blood tests (**middle right**). Then finally the time came; students were layed down on tables and blood was taken (**top right; middle left**).

Who said students don't care? The taking of blood is not a pleasant process (**right**). These responsible students willingly volunteered their blood to help others.

The students come from the various communities surrounding Lew Wallace. (**Opposite Left top, middle, bottom**) Now as winter leaves, we slowly see signs of summer creeping through. Starting with "the buds" then finally ... "the bloom" (**top and bottom right**).

Weeks of Planning

If there's one event of the year that more students look forward to more than any other, it would have to be the Prom.

This year's Prom, "A Touch of Class", was May 19th at the Greek Hall. Blossoming trees, picket fences and a wishing well transformed the hall into a spring paradise.

Weeks of planning preceded the prom itself, with ordering tuxes, picking out dresses, making decorations and reservations. The Prom band was Stone-wood Fox and at 11:00 the Post-Prom band, Natures Way, took over until 3:00, when everyone headed home.

Goodbye Class of 1978

On June 6, 1978, a class of 425 seniors was graduated and said, what was for most of them, their final goodbyes to the school where they spent much of the past four years.

Tears began to flow and smiles began to shine as the Processional began with the class President Mark Reid and V.P. Sherrie Garth leading one line and the Valedictorian and Salutatorian, Dan Wahlman and Mark Bernat, the other.

This year's Baccalaureate address was given by the Rev. Don L. Rhemel of the Lake Station Church of God. The choir, under the direction of Mrs. Robinson, and the band, lead by Mr. Paul Chilson and Mr. Tillman Buggs, entertained the graduates, families, and friends. After the Valedictory and Salutatory addresses were given, Mr. Christoff made the presentation of the class, which was then accepted by Superintendent Dr. Gordon McAndrew.

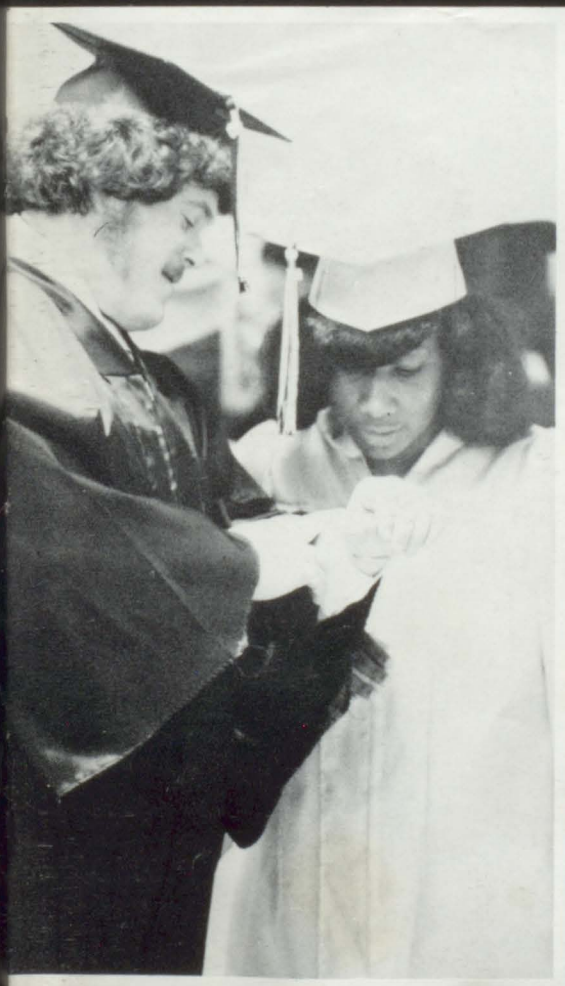

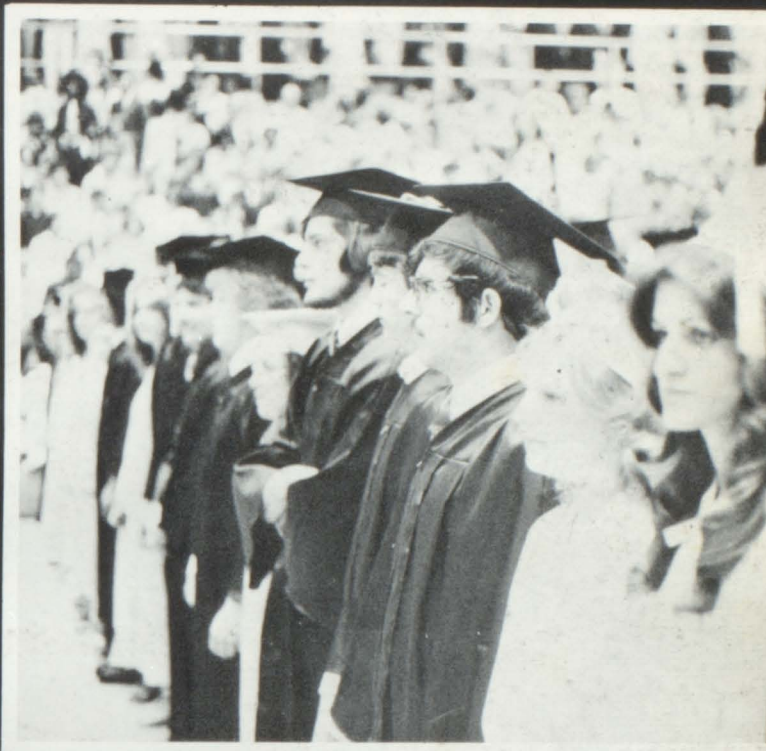

The diplomas were distributed by Mr. Clarence Currie. After the Benediction by Mark Reid, graduated seniors of L.W. marched out into the halls of the school for the last time.

Blizzard Hits Area Hard

Care to take a cold shower? It wasn't too hard to do this winter, considering the school's hot water was turned off. The nationwide coal strike hit hard in the Midwest where many homes and businesses were without heat and some states declared a state of emergency.

In school, no hot lunches were served and no film could be developed be-

cause there was no hot water. Christmas vacation was extended to three weeks in order to save on heat energy. On many days, the temperature dropped to below zero.

When school was in session, lights were at a minimum. To top off the freezing temperatures, the Midwest was

struck with a blizzard! Many Gary area residents were stranded in their homes.

Snow began to be something taken for granted as the Chicago area saw a record season snowfall of eighty-two inches. But once again, the people of Gary proved to be die-hards and warm-blooded.

Has the Class of '78 really

In September of 1974, the class of '78 arrived starry-eyed and unsure of what lay ahead. Now, 4 years later, we are still starry-eyed. But we have emerged from a chrysalis of confusion to the maturity only knowledge brings.

Senior Joyce Drasich said, "I think we, as underclassmen were like caterpillars in the chrysalis stage. And when we are seniors we emerge as butterflies."

Seniorhood arrives with big crises, little irritations, and a mountain of doubts. **Big crises** ... Wondering where money will come from to pay for caps and gowns, the prom, and all the necessities for seniorhood can be a big headache. So we find more and more seniors are getting parttime jobs to pay for costs that arrive that final year.

"It's funny how much money I spend," said Kathy Baldea. "I spend more my senior year, yet I participate less in school activities."

"This year I spent a lot less time on school activities and after school. I have a job now and I don't go to a lot of things," said Nancy Schuffert. "But my senior year has been the easiest. All my college scores are finished, and my ranking is in, so all I have to do is attend school every day."

Little irritations ... Finding half the class gone when there is a pep rally, or finding out there are a zillion forms you have to fill out before you can attend your favorite college choice have a way of complicating the senior year.

A mountain of doubts ... Deciding which way to jump after graduation seems to cause stress and tension the senior year. Ironically though, almost everyone is eager to get out of school. No more school lunches, no more "Notes From Mother", and no more "old fashioned" music coming from the intercom when an announcement is made, and no more cramming for the test you forgot was next hour. Seniorhood can best be described as a year of organized chaos.

Changed? 4 years tells all ...

Has the class of '78 changed since their freshman year?

Nothing stays the same. Change is about the only thing we can rely on, so the saying goes. It is inevitable—one cannot expect to go through high school and not be exposed to many new ideas and attitudes from other students. Some of these new ideas change you, some don't.

"I've changed a lot since my freshman year. One good thing I have to say about my senior year—I know practically everyone in the senior class," said Anita Lee.

When we came to Lew Wallace, we had just finished 8 years of hanging around with the same little clique of friends and we came to 9th grade, to find that our best friends had gym and English I while we were stuck in Algebra I. So we all had to be flexible and learn something very important—how to make friends.

While we are in school, life is very secure with the knowledge that nine months out of the year we will go to

school and be with our friends. School was like a security blanket. Now as seniors we must make decisions, and watch our friends go their different ways. This is where the future starts.

Yes, the class of 1978 has changed.

We changed from the freshmen who didn't know what a pep rally was to a senior who had to work overtime on homecoming night.

We changed from a sophomore who spent 1 or 2 hours on extracurricular ac-

tivities to a senior who only attends school on a half-day basis.

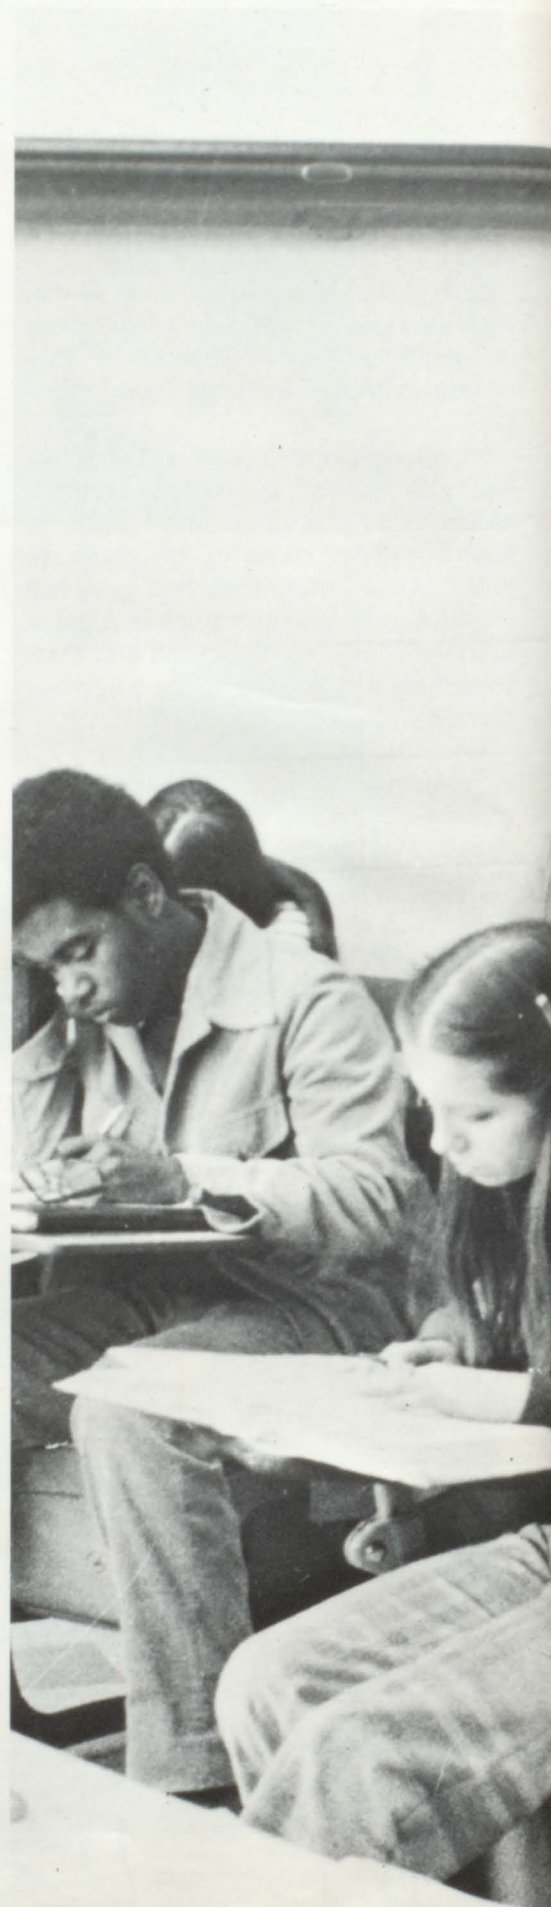

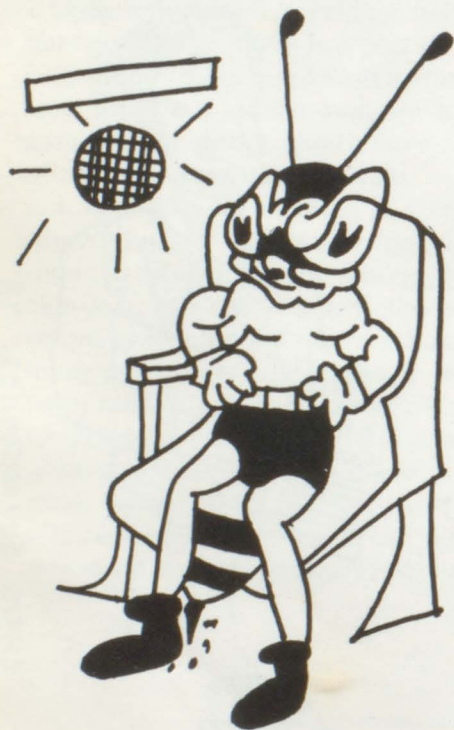

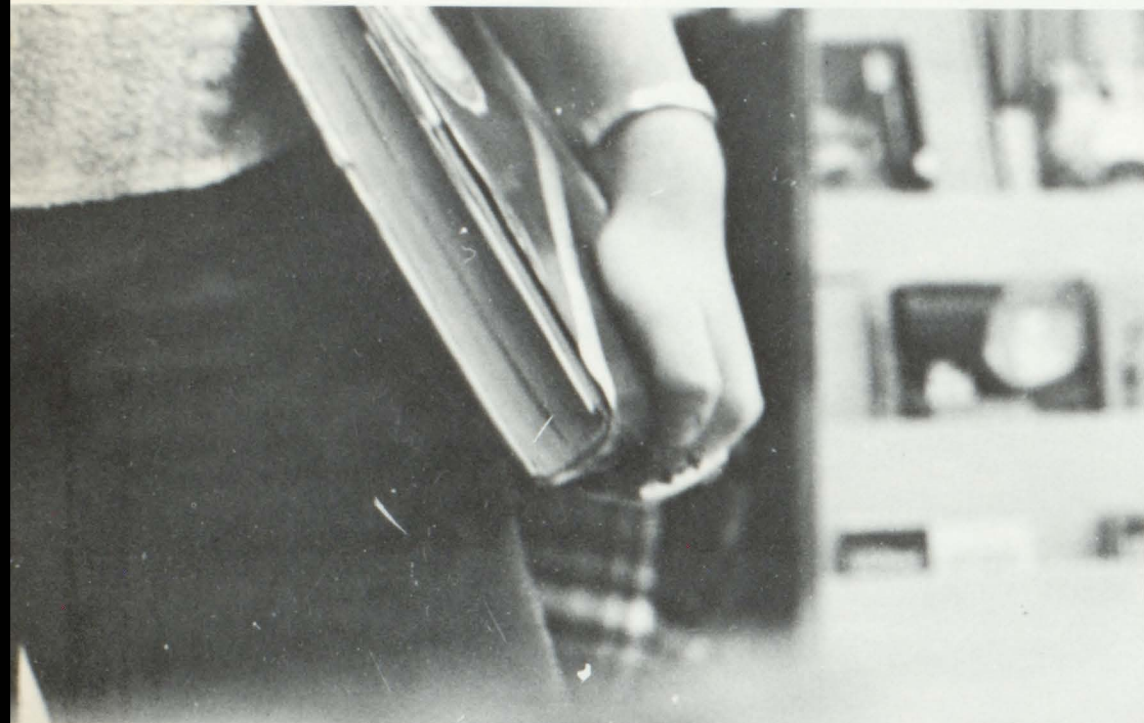

We changed from a junior who had to "strain the brain" for the PSAT, Army tests, and college preparation classes to seniors who have to fill out infinite amounts of college applications and job resumes.

We changed from starry-eyed freshmen to starry-eyed seniors who are now better equipped to tackle the problems the future shall bring.

THE CHALLENGE OF

THE SEXES -- CO-ED GYM

Dear Mom,

I am running away to Timbuktu because in co-ed gym, I tore my gym suit right in front of all the boys! Ugh! Women's liberation has finally equalized us so that all I do in that class is get hit on the head by flying basketballs and exercise constantly.

Get ready! There might be some rocking action ahead since a new challenge has been added to gym class.

Co-ed gym has been received with varied feelings, as Sandy Yiatras states, "Co-ed gym is weird and embarrassing." James Mitchell said, "It's all right as long as the girls don't play basketball with us."

As we approach the Coaches' Office we hear Miss Dotlich's encouraging comments, "Co-ed gym is good experience for both sexes to be together in such a competitive class. The girls seem to try harder when they compete against the boys and the boys are acting like gentlemen. The classes are working out very well."

All students enrolled in Physical Education are required to participate in all activities. Most students behave sports-person-like, as this year's activities were volleyball, basketball, tennis, floor hockey, baseball, table tennis, racquet ball, and hocker ball.

Opposite top: Scott Mayes and David Montanez await the serve in a game of volleyball. Opposite lower right: Cheryl Zezule shows that gym can be tiring. Upper left: Kim Spiller and Curtis Williams argue over the rules of the game. Upper right: Denise Mosley practices perfection on the balance beam. Left: Melanie Williams expresses confusion while lifting weights.

SOCIAL STUDIES AT HOME AND ABROAD

A first in the Social Studies department this year was a trip to old London. Thirty-two students made their way to London, England. Students toured London and visited historical sights. They were allowed time on their own to go out and socialize. Mr. Russell and Mrs. King sponsored the trip.

While back at school students were busy exploring other countries' ways of life. Mr. Pollak's World Civilization class learned about Egyptian customs from principal Mr. Christoff. He presented a special attraction with slides and artifacts.

Mr. DeLeurere, who teaches U.S. History, "strolled down memory lane" with his students through "memory gems". Students memorized such historical

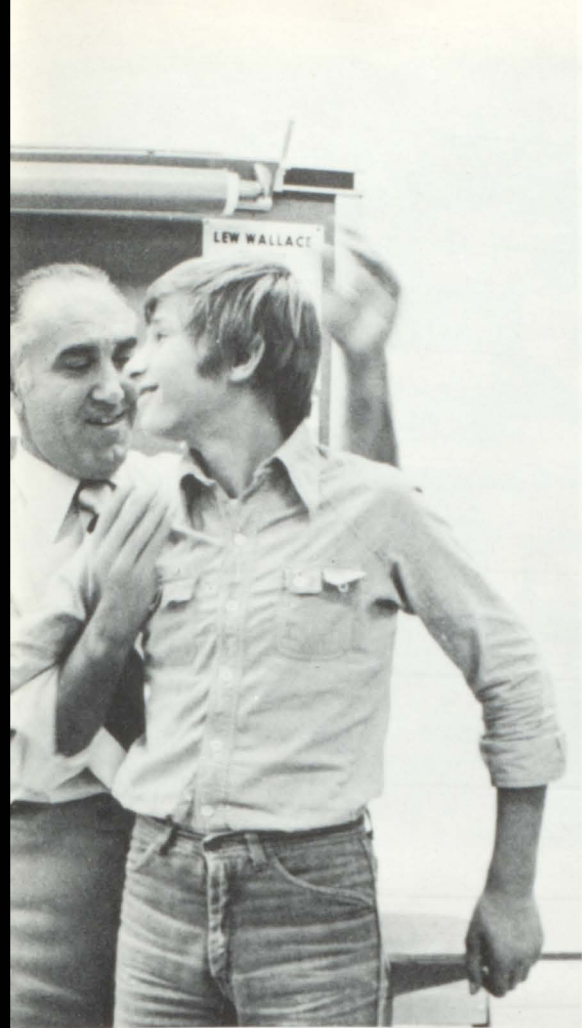

speeches as "The Preamble to the Constitution", "The Crisis" by Thomas Paine and "The Gettysburg Address".

Government and Economic classes helped seniors budget money and learn how to buy stocks and bonds.

Electives in the department consist of psychology, social problems, fundamentals of law, black and Latin studies.

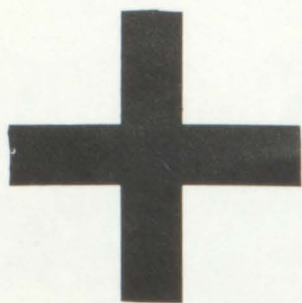

Psychology deals with individual thought patterns, while social problems tries to explain and answer societies many problems. Fundamentals of law opens the students' minds to our court system today. Different cultures here have an opportunity to look into their background and the problems their ancestors faced through black and Latin studies.

DOES IT ALWAYS ADD UP ?

From General Math to Calculus the Mathematics department covers a wide range of courses. For students who are interested in taking high math courses, Mathematics Ix, IIx, IIIx, IVx are offered. While most students take Algebra II course others have an opportunity to take an easier two-year math sequence.

Semester courses consist of trigonometry probability, and statistics.

Experiments Motivate Scientists

The Science requirement for hornets is 1 year of any type of science. The choice might be difficult. Everything from Physical Science to Accelerated Biology is offered.

You might want to learn the scientific aspect of living in life science. To add a little adventure to life there is biology. If you really want to shake the world, chemistry is for you. In physics the laws of motion are taught. The future doctor might take accelerated biology for a real challenge.

Some students were assigned pond water experiments in which they got their own water from a swamp and analyzed it. Other students grew molds in petri dishes and looked at bacteria under a microscope.

Top: Students in Mrs. Boyajians 2nd hour class listen and take notes. **Right:** Assistant Kevin Kaylor with his knowledge of science sets up an electrolysis apparatus. **Opposite top:** Mr. Vereb's pet rat "Pete" thinks intently about the theory of heredity. **Bottom left:** Steve Wisneski peers into the unknown! **Bottom right:** A science class gets ready to see a film.

ROTC Builds Spirit And Discipline

ROTC's big event is the annual city-wide competition in which six Gary high schools are judged. The competition is tough and many long hours of practice are spent preparing for it.

The squad undergoes daily inspection plus rifle shooting in the basement to

keep the 194 students in good shape. Emphasis is placed on military background, drill work and rifle handling techniques.

Along with posting of colors at the home basketball and football games, the

color guards also perform at the class officer inauguration and homecoming pep rallies. Selling candy is the main fund raiser. Incoming students who would like to be a part of the ROTC would have to contact their counselor for information.

Above: An informal classroom inspection is a daily routine for these students. Manual Guardiola, Benji Serrano, Kevin Powell, Brian Edwards, Latoya Smith, Pat McKinny, and Diana Cruz.

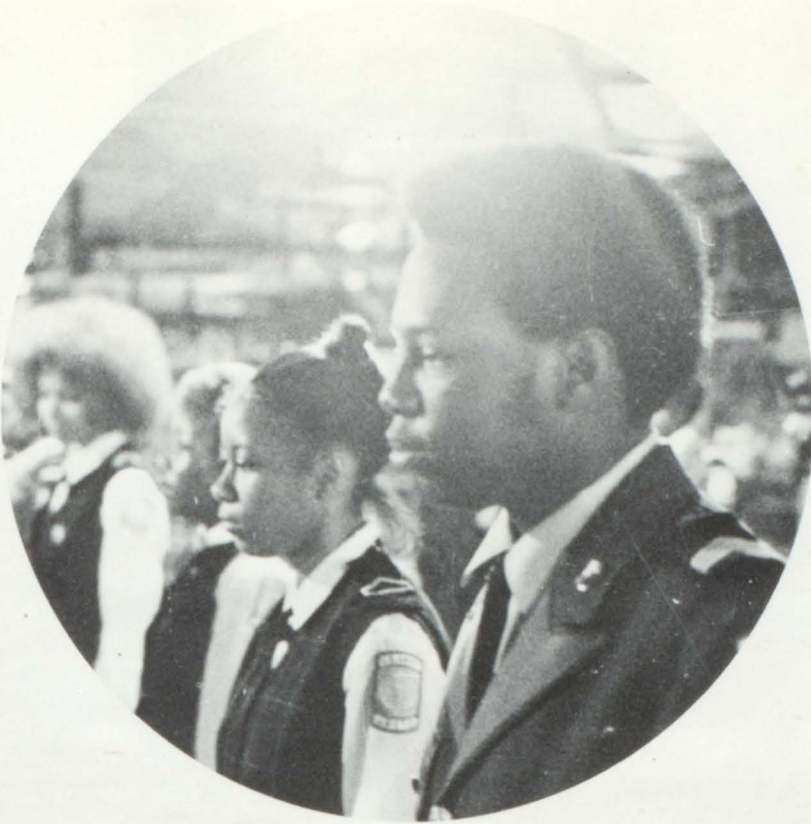

Right: Finally after the inspections and hard work, perfection shows as the color guards perform.

You can't argue with the women in charge. Paula Eastland drills Richard Vargas and Derrick Atkins.

Junior Hornets Aim for the Stars

Lunch hour practices and extra dedication lead to the special education basketball team's success in it's first session. Mr. G. Smith was the head coach of the "Junior Hornets." He lead his team to becoming first regional runners-up.

The Hornets defeated such schools as Benton Central and South Bend Central. Beaten for the championship by East Gary, they lost only by six points.

Above left: Team members kneeling from left are; Darrell Eller, Sam Fernando, Fentry Powell, John Shearry, Dave Martinez. **Standing are:** Joe Martin, Charles Woods, John Hamilton, Carl Griggs, Barry Russell, Robert Burts, Zachery Albert, Dave Burns. **Above Right:** John Hamilton makes a quick decision on a shot. **Right:** Zachery Albert gets ready to pass.

Special Services Gives Special Aid

The Special services department provides help in four fields. For visually and hearing impaired students, special classes are designed to meet their needs. The TESOL program helps non-English speaking students to learn the language, and general special education is essential for students with slower learning abilities. With the use of special materials and equipment these students get the education that they need.

Top: Camille Gay communicates with her classmates in a hearing impaired class. **Left:** Mrs. Koester shows visually impaired student Lisa Turner how to use a special calculator. **Above:** Carl Rogers types out an assignment on a braille typewriter.

KNOW ANOTHER WORLD

LEARN ANOTHER LANGUAGE!

Learning another language not only improves your mind but also opens more doors in traveling, business and just plain everyday life.

This year the foreign language department had club initiations, field trips, class projects and films.

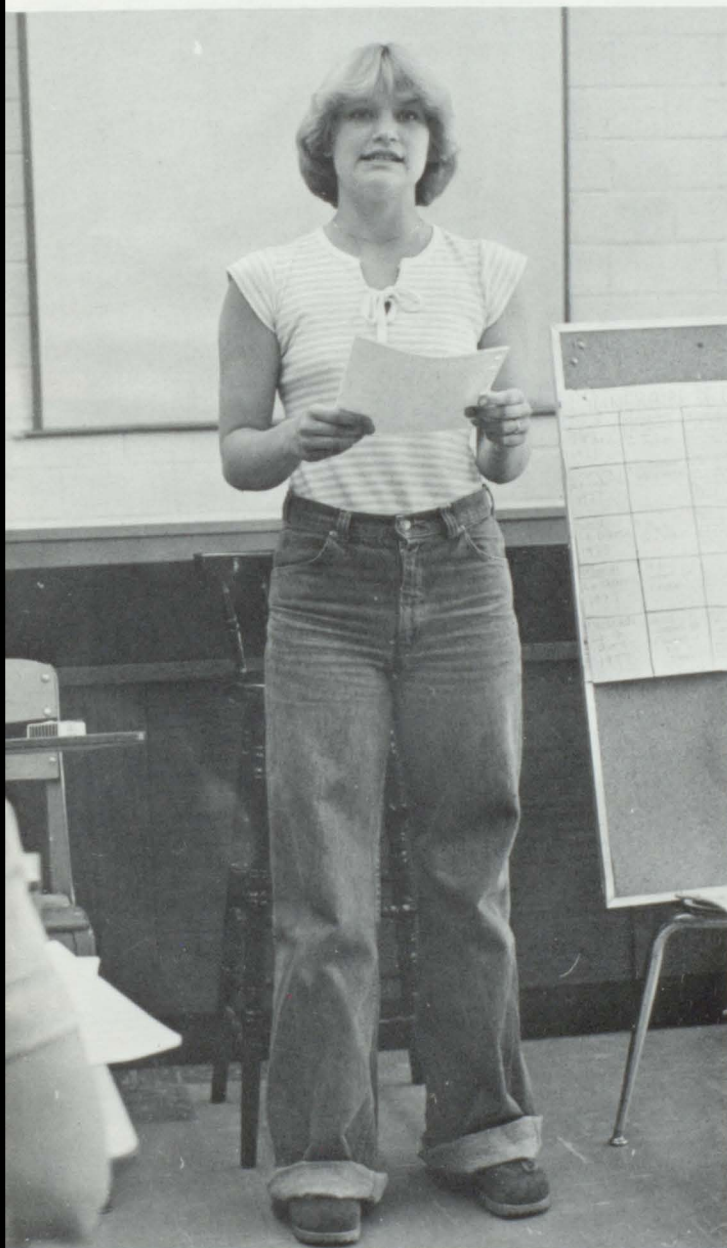

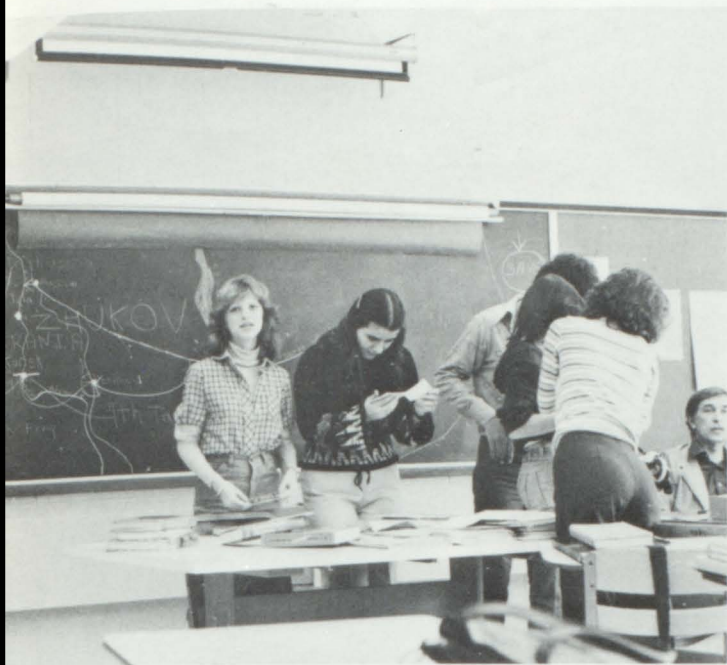

Students in French class have discussions on "Baby Marci" plus commercials and travel reports assigned by Mrs. Janjecic.

Spanish classes, taught by Mr. and Mrs. Valle and Mrs. Justo, have been experiencing an increased enrollment. Spanish classes had a field trip to Great America.

Mr. Parfenoff teaches a tough Russian class but his students don't mind. They relaxed when Russian club had a luncheon and a shopping spree.

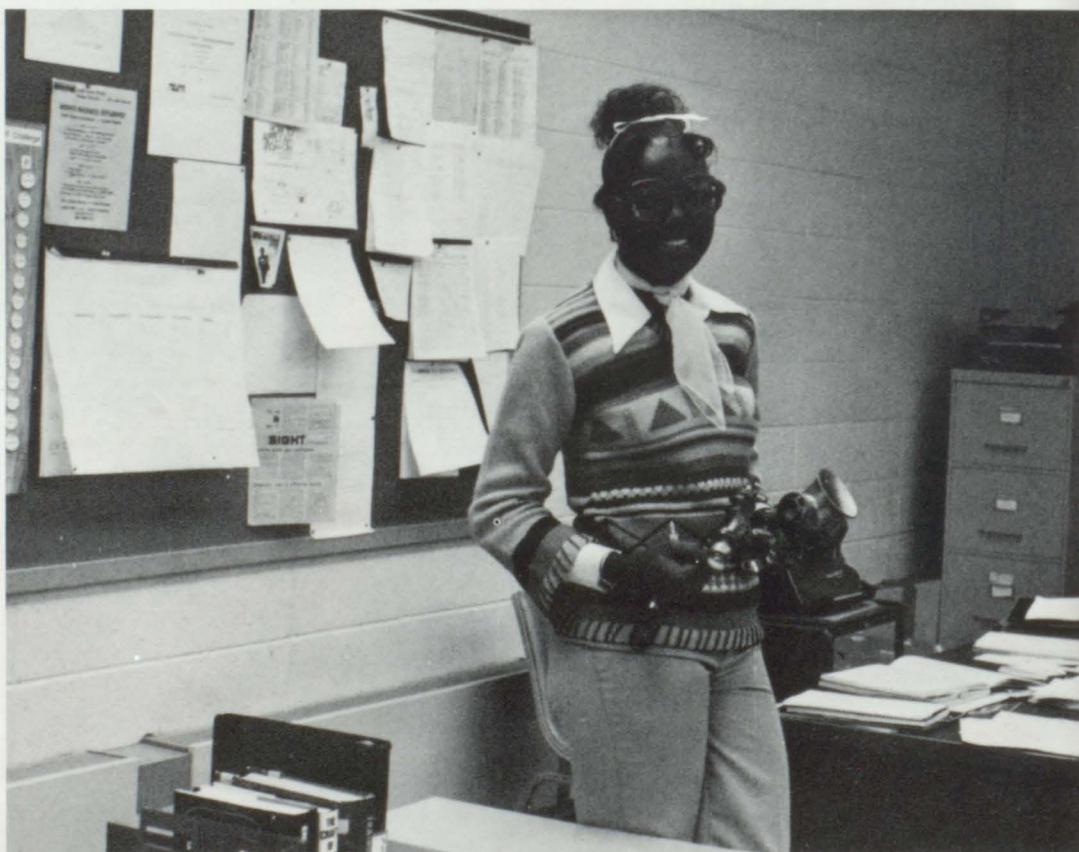

Although German and Latin classes are somewhat small, students have an enjoyable time learning these unique languages.

SPEECH REQUIRED; MINI - COURSES DROPPED

Opposite top left; Mary Taylor demonstrates poise and good technique at the podium as she delivers a speech. **Top right;** Scott Anton undergoes a change, as drama teacher Mrs. Setnicker applies make-up for effect. **Bottom left;** Sophomore Preston Brendyk practices one of the many speeches required of him this year. **Bottom right;** An assignment of following directions is carried out as Demita Barnes demonstrates the process of taking apart a meat grinder. **Left;** Sophomore Brad Isaac demonstrates hand gestures while giving his speech. **Lower left;** Don Brummet creates a swan as an assignment for following directions.

Embarrassing moments, dramatic readings and demonstrations were encountered this year by the class of 1980 as a new curriculum requirement was put into affect. Faced with time limits anywhere from 1 to 6 minutes, sophomores had a challenge giving speeches and interviewing professional people about their job skills.

Students learned poise and techniques through formal and informal classroom activities.

As an additional graduation requirement students had to pass the oral proficiency examination which consisted of being interviewed by people from different schools. There were personal interest interviews and biographical interviews. Students could also give memorized speeches for the test.

Mini-courses were dropped for second semester, and the students went back to the old system of having one English course for the complete year. Beginning with English I and learning the basic fundamentals of grammar, students then go into literature, poetry and in-depth reading. Some classes read well-known novels such as, *The Pigman*, *To Kill a Mockingbird* and *Great Expectations*. Also, English IV is a must for any college bound senior.

A limited number of English II students were offered the chance to see "Romeo and Juliet" at the Cinema.

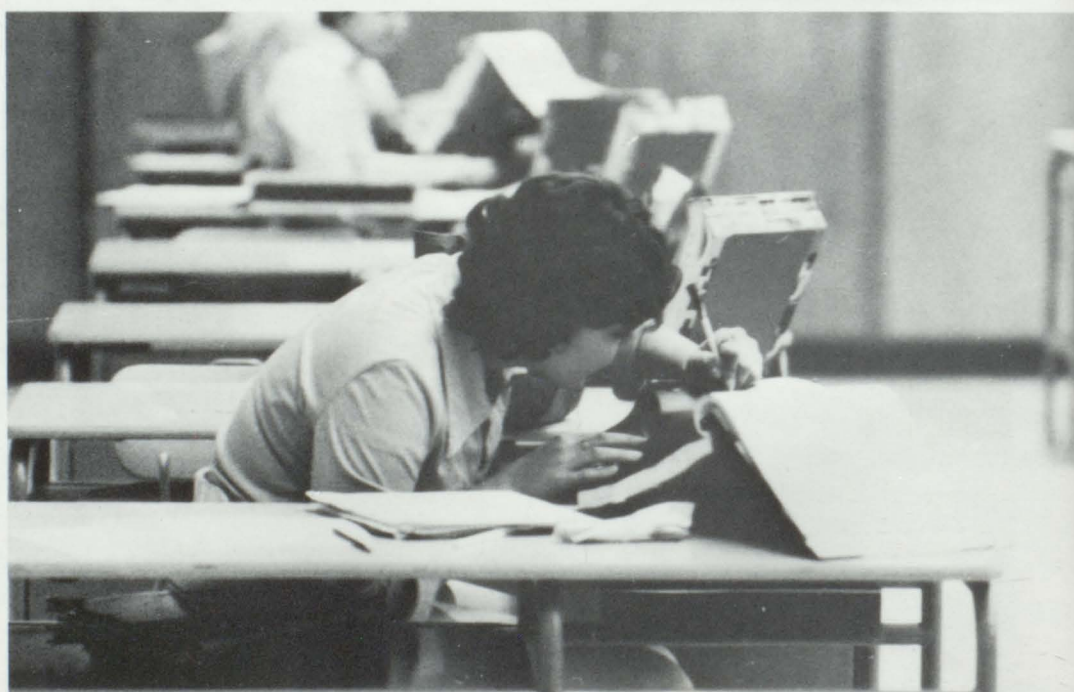

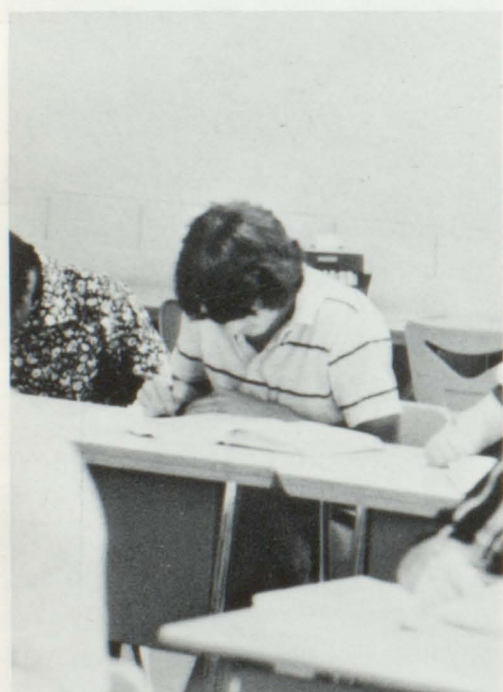

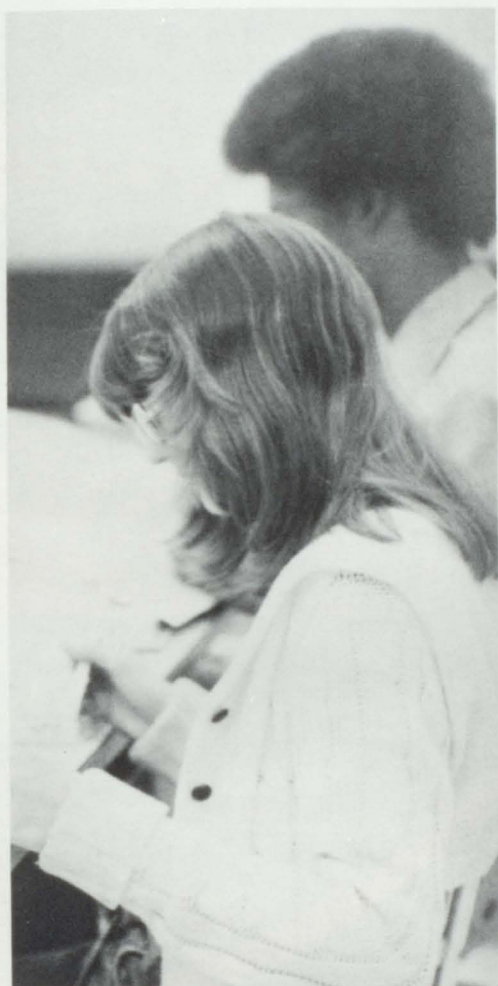

Mixing Business With Pleasure

Business Education plays an important role in the lives of students today. As a lot of our students will be entering the business world these courses prepare them for the future.

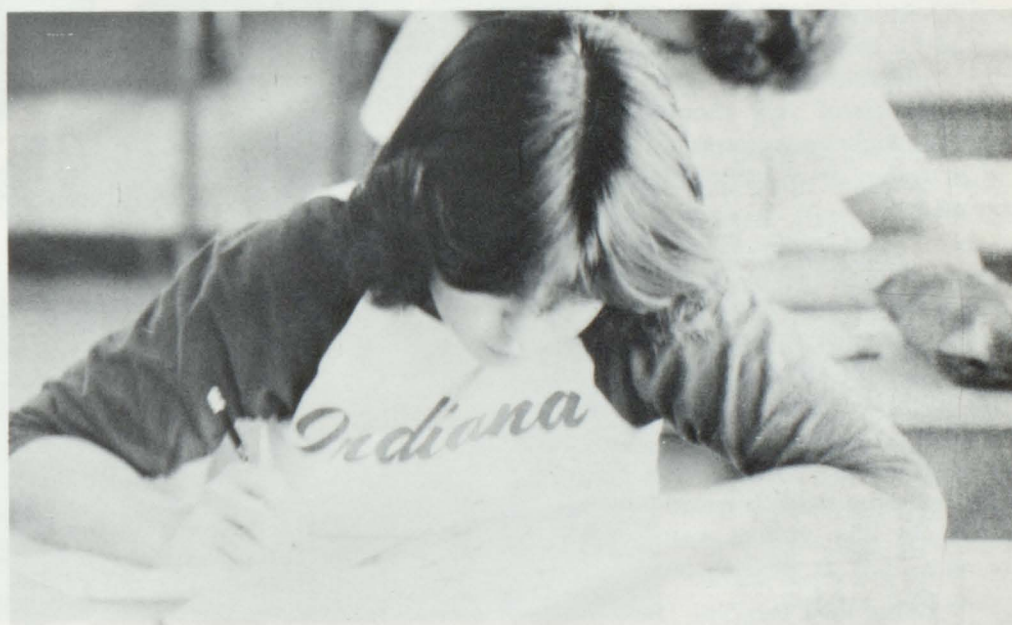

In Typing I students learn the basics of typing and the keys plus having to type 40 words a minute for a final exam. Go-

ing on to typing II students work independently on advanced skills. In general Business balancing budgets and banking are the main objectives. Accounting students prepare for the future by working in fictitious companies. Shorthand is one of the basic requirements for future secretaries.

Opposite top left: Rick Moskovich works with figures and budgets in accounting class. **Opposite top right:** Looking over her work in Typing I, Sue Purdue decides what to do next. **Opposite bottom left:** In General Business hard work is necessary as shown by Ray Arambula. **Opposite bottom right:** Trying to overcome an unfortunate occurrence in Typing II is Cindi Uritski. **Far left:** Business student Renee Hansell reviews for a test. **Left:** Dorothy Ajder concentrates on ledger work. **Below:** While doing an assignment in Typing II, Donna Yurchak concentrates on her work.

CREATIVITY IS THE KEY

Michelangelo and Picasso would be glad to know that the art department has had a very successful year. Some students show very promising talent as they draw, paint, and create.

As we look on the bulletin boards of the art rooms we see beautiful paintings, portraits, and macramés (center). The style which students use is their own and every work of art is an original. Art projects displayed in the April art fair (upper right) were admired by the visitors who came to look at the art from many Gary schools.

TO ART

Putting an idea in paint is difficult at times for Rose Franco (**bottom**). Senior student LaLa Perez shows satisfaction with her work (**opposite upper right**). John Barancyk and Don Jackson put their talent together to finish a yarn picture (**bottom**).

Under the direction of Mr. and Mrs. Burelli and Mr. Elser future artists will have a chance to excel and improve their ability.

Girls, Guys share Industrial arts jobs

Women's liberation has reached the Industrial Arts department. Girls are enrolling in the classes in greater number than ever before.

Girls like working with the boys and they are required to do the same work as guys do. The girls seem to enjoy it and the guys do, too!

Some guys feel kind of awkward working with girls, but they get used to it.

Girls being in the classes does not bother the teachers either. As one teacher summed it up, "Everyone is an equal, no matter what race or sex."

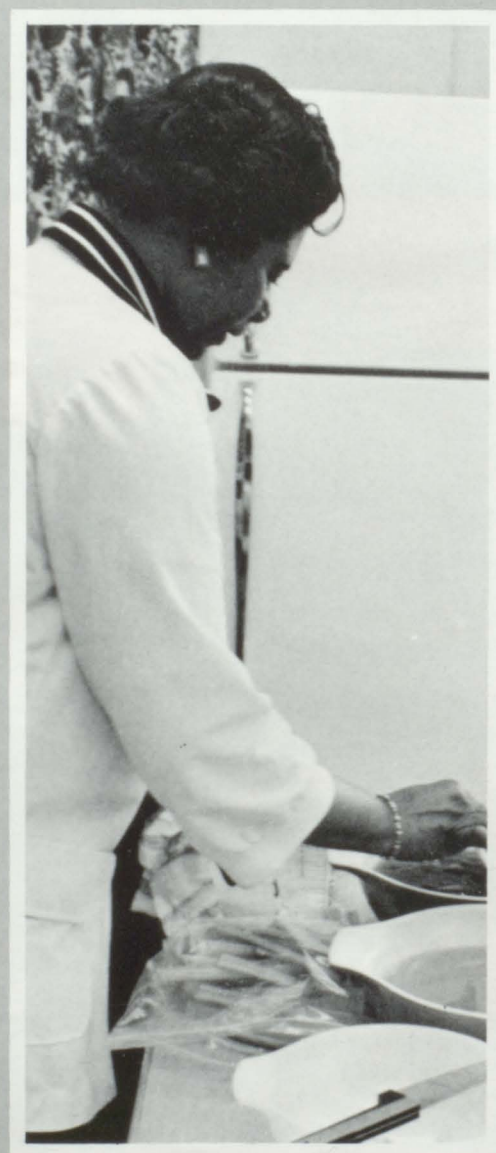

In the department a variety of courses are offered in which students can use their own talents and skills, along with learning new techniques.

In power mechanics the students are learning how to take apart and put together lawn mowers and other small engines.

Students in woodshop are constructing cabinets, wall clocks, files and wine racks.

Print shop classes print up various tickets for student council, all movie tickets and prom signs. Making ash trays and other tin projects are covered in metals.

Mechanical drawing deals with making pictorial drawings of objects and second year students work on prints.

Home-ec "Creates" Home-makers

The place where girls can talk about their guys, dating, and marriage all hours without getting into trouble is Interpersonal Relationship classes.

The Home Economics department offers courses designed to help students now and in the future.

For the creative woman Equipment, Family Housing, and Interior Decorating are offered. Child Development classes aided students in understanding the feeding and caring of children. Clothing I classes covered the basics of sewing, while Clothing II classes worked on more complex projects.

Preparing jellos, cookies, muffins, and other dishes, Foods I and II classes use their skills to conjure up appetizing dishes.

Opposite: Top left: In child development classes Ida Volochati and Milena Rastovic play games with children. **Top Right:** Mrs. Buford, from NIPSCO'S Consumer Service Dept., prepares a complex jello while Mrs. Anderson looks on. **Bottom Left:** Home Ec classes were visited by a professional model and her assistant. Tech Teaches Techniques

From carpentry to radio-television broadcasting, Gary's Vocational Technical Center helps students achieve their goal through on-the-job instruction.

Courses are offered to juniors and seniors in building construction and maintenance, business and commerce, communications, mechanics, and metal working and technology.

Students attend three period sessions to insure maximum uninterrupted instruction closely associated with the actual on-the-job working conditions.

Right: Using their newly learned skills, Bret Bristow and Bob Bowen weld together a rod. **Far right:** Welding is one of the many trades at Tech. **Below:** Gary's Career Center located on Martin Luther King Drive is the vocational school for the area.

Equipment encourages Education

40,000 books, 5000 recordings, and 2000 film strips keep students occupied in the library daily from 8:15 to 4:00.

Librarians Mrs. Wilkerson and Mrs. Lewis help students locate materials while their 28 assistants shelve books and help out at the circulation desk.

Everyone in the library has a job. Mr. Scheub, head of audio-visual, and Mrs. Stefanelli, technician, keep track of all the audio-visual equipment with the help of their assistants.

Keeping filmstrips, projectors, tape recorders, filmstrip viewers and the new television cameras in good shape are their duties.

Left: The library at any time of the day is a busy place. **Bottom left:** Working or resting, the library offers a quiet working surrounding. **Below:** Technician Mrs. Navarro keeps the circulation desk in order.

Students Reverse Roles

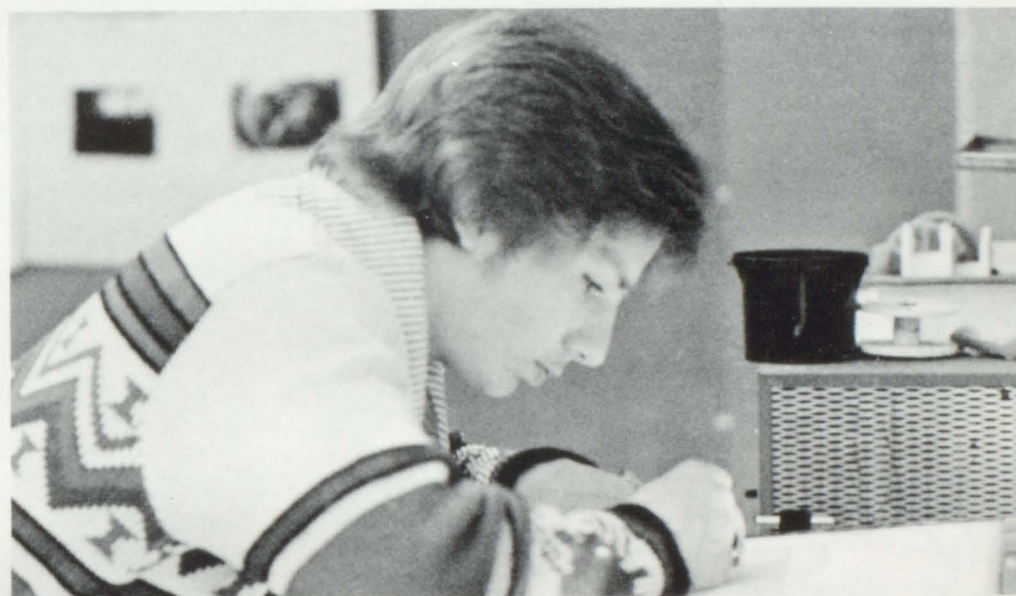

Twenty-four Wallace students reverse their student/teacher roles by tutoring for two hours every Thursday. Students get to be the one in charge instead of the other way around.

Aiding teachers by grading papers and projects, tutors also read to children. They help them with their work individually and in groups. The tutors are thought of as friends and are invited to attend Christmas parties and an end of the year party.

Right: Senior Holly Webb gives a few pointers. **Below:** While reading to children Mildred Montamoyor expresses satisfaction. **Bottom right:** Tutors walk back from Melton Elementary School.

They Shoot People

Shooting and printing are the basics learned in photography class.

Students learn to use cameras and to develop dark room techniques as they undergo hours of instruction.

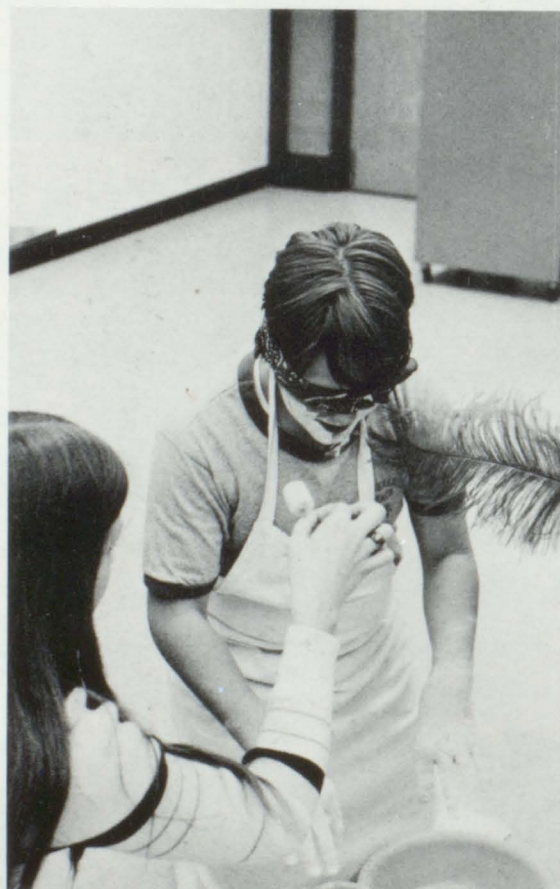

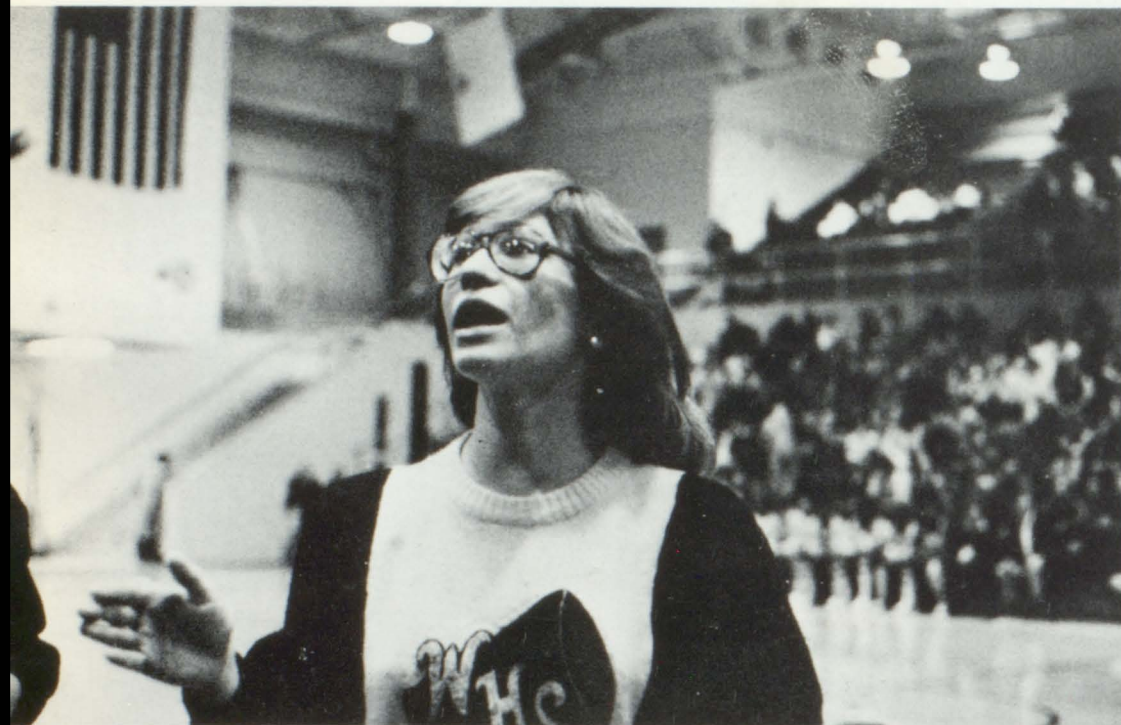

Mr. Neil, photography teacher, constantly emphasizes a good print with total constancy.

Other areas such as photo-journalism, documentaries and portraiture are examined.

Mr. Neil chooses pictures of excellent quality throughout the year to be exhibited at the service center and at fairs in the area.

Good pictures from the classes were also chosen for the yearbook, **Quill and Blade**.

OEA EXCELS IN OFFICE SKILLS

Office Education Association is sponsored by Mrs. Emogene L. McMurtrey. Their goal is to develop leadership in the field of office education.

Students come to school for one hour. Then they leave and go to their separate office jobs. Students in OEA are from the bottom to the top: N. Webb, S. Porter, A. Lee, D. Gilmore, C. Zenlik, P. Maxwell, S. DeLuna, K. Barnett.

STAFF OF THREE PUTS OUT PAPER

The **Philosopher** was staffed by only three students this year. They are Victoria Moreno, Virginia Blasco, and Peggy Spence. They were helped by Mrs. Craig and her student teacher, Mr. Richard Nichols.

Q U I L L & S C R O L L

To be eligible for Quill and Scroll, a student must be a junior or senior who is in the top third his class. He can be on the yearbook or newspaper staff and must be recommended by the adviser. The members of this national honor society for journalism students are: S. Garth, T. Wislo, P. Spence, C. Subartowicz, C. Hocza, P. Góurlay, and D. Yurchak.

PICA SETS IMAGE

Lew Wallace would be lost without the services of the Pica Club. They print programs for Student Council Inauguration, Senior Honor Society Induction, Awards Day, City Wide Spring Concert, and Graduation. Pica Club also prints tickets for dances and different functions. The administration is presented each year with note pads. They also print a yearly calendar. This year is the 41st year of Pica club. In the future they would like to add two electric typewriters and a projector to their print shop.

CHESS TEAM CAPTURES CITY

This year's Chess Club became the 1978 Gifted and Talented Conference Champions. Sponsored by Mr. Smith, who lends a helping hint or two, the Chess Club came in ninth place in the Indiana State High School Chess team tournament. The team attended Indianapolis Individual U.S. Amateur Championship this year.

Rade Stanjevich and Dan Adamovich were two members who worked upon making their own records, with Rade receiving the Most Improved award and Dan being the best Sophomore.

SERVICE IS OUR WATCHWORD

Y-Teens promote school spirit and unity among students. With helpful guidance from Mrs. H. House and Mrs. S. Craig, the Y-Teens provide service to the community and the school. This is accomplished by sending baskets to the needy families during Christmas and visiting the local hospitals. Members of Y-Teens visit different colleges during May to help them select a good college.

Band Blasts and Boogies!

One and a two, and a ready . . . play!

This year, for the first time, the Stage Band entered the annual NISBOVA contest. They received a unanimous first from three judges.

Nine individual members of the concert band went downstate to participate in the finals of NISBOVA. They all returned successful. Freda Shelton received a first for her flute solo, and Leonard Hayes for his sax solo. The brass sextet consisting of Angel Olivencia—trumpet, George Martinez—trumpet, Miguel Rodriguez—trombone, Jose Vasquez—trombone, Eric Merriweather—tuba and Commodore Warren—baritone received a second. John Yorko also received a second for his sax solo.

Adding to their busy schedule the marching band marched at football games, while the pep band performed at basketball games. Concert band also performed at several assemblies, a Christmas and Spring program.

GET INVOLVED; EXPRESS YOURSELF

This year the Modern Dance group gave performances at half-time for basketball games, assemblies, and entertained at the Gary Public Library.

The sponsor for these girls was Mrs. Mary Wiley. The Modern Dance group was organized to provide entertainment and a creative outlet for young ladies to express themselves.

ACTIVITIES KEEP CLUB BUSY

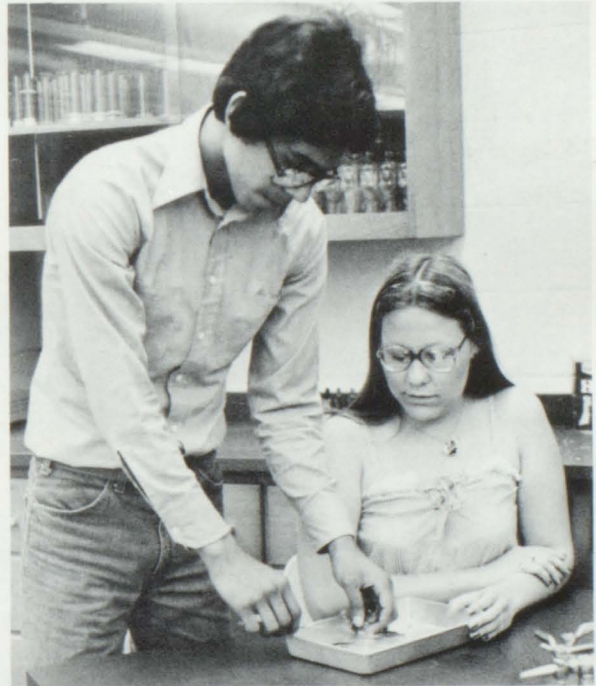

This year's Biology Club activities included a skating party, a trip to Indianapolis for a seminar, going to the Valparaiso Science Seminar, and to the Indiana Academy of Science Meets.

This year's officers were Michelle Winters, President; Andre Sellars, V.P.; Kara Barnett, secretary; and Bruce Williams, treasurer. The Sponsor was Mr. Lee Moss.

The only requirement for membership is that you have to be a biology or life science student with an interest in science.

The tournabout, monthly faculty teas, a pool party, birthday potluck, and two shopping trips to Woodfield mall comprised the active girls' club calendar. The club was founded by Mary Cheever in the early 1940's to offer service and fun to any girl.

The officers for 1977-78 were Rhonda Henning, president; Sherrie Garth, secretary; Cindy Baldauf, treasurer; Cindy Wislo, junior vice-president; and Margie Wislo, sophomore vice-president.

Spirit remained undaunted after the Drill Team did not place in the Annual Drill Team Competition at Westside. However, Drill Team Commander Norberto Ojeda placed third in the Knock Out Drill. They had drilled everyday, before and after school to perfect their routines. They participated in a drill meet at Culver Military Academy, which had a small audience, but was large enough to prepare them for the crowd at Westside.

"LIFEBOAT" ROCKS GYM

The navy rock band "Lifeboat" made a return performance this year. Students rocked to such tunes as "Brickhouse", "Theme from Rocky," and "Play that Funky Music."

Senior Honor Society sponsored that concert plus many more assemblies this year. Senator Birch Bayh visited school at which time students questioned him on various political issues.

Dances from different countries were performed during the cultural week celebration, co-sponsored by the honor society.

The group also visited the University of Chicago and the Art Institute. Arbor Day was celebrated by a traditional tree planting by members.

Yearly activities ended with the induction of new members into the senior honor society.

LUNCHEON HIGHLIGHTS ACTIVITIES

Russian Club's biggest event was participating in the cultural week festivities.

They sponsored the sixth annual luncheon for which they cooked various ethnic dishes such as sarmas, Greek domadis, lamb on spit-hot, stuffed peppers, and Yugoslavian beef.

Members also dressed in costumes for the all school assembly at the end of the week. Russian Club with Student Council sponsored a movie "Towering Inferno".

Money raised was used on a party, and helping the Math and social studies clubs. Meetings were Mondays after school.

This year for the first time freshman football and basketball players were cheered to victory by a freshman cheerleading squad. The freshman squad performed at all Freshman home and away games.

They entered cheerleading competition at the University of Cincinnati, Ohio, and won third place.

The varsity and reserve squad displayed spirited performances at games and special events. They performed at the student-teacher basketball game during spirit week and at the various pep rallies this year.

To qualify for cheerleading a student must have at least a C average and be able to perform acrobats.

NEW NAME, NEW ACTIVITIES

To encourage love of learning; value knowledge; provide a wide range of materials and learning activities; help students feel rewarded for learning; and aid students, parents, and teachers to work together in fulfilling the school's responsibility for teaching.

This is the creed of the Lew Wallace Students, Parents, Teachers United, formerly PTA.

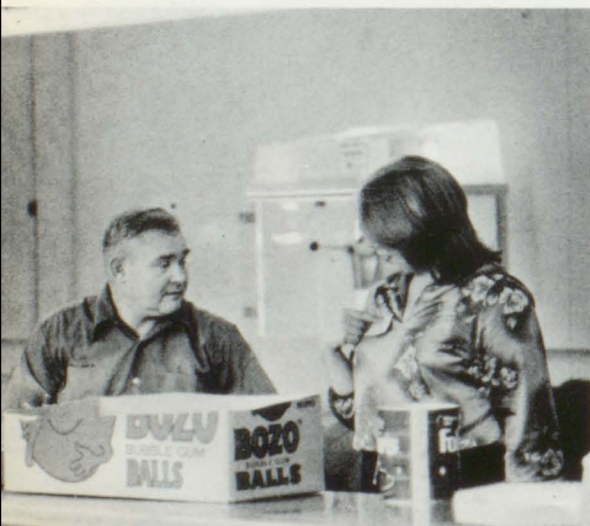

For activities, an SPTU float was entered in the football homecoming parade. Also, athletes and parents were treated to refreshments in the cafeteria on both Parents' Nights, one in the fall and one in the winter.

SPTU sponsored this years post prom party. A raffle was held to help pay the expenses for the post prom. SPTU members also chaperoned the senior party.

HAVE YOU GOT YOURS ?

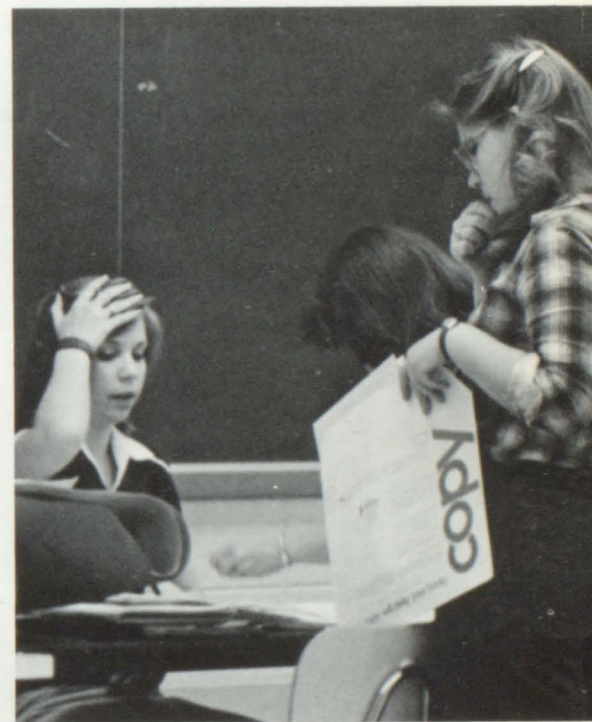

I GOT MINE

While walking down the hall in the beginning of the school year, chances are you saw students wearing t-shirts with "I Got Mine" on them. These students had bought yearbooks. Staff members wore the counterpart of theirs "Have You Got Yours?"

In order to obtain more ideas for the yearbook, the staff went to an American Yearbook Workshop at St. Mary's College. They had ideas for layouts, theme development and photography.

The staff sponsored the movie "Tommy" and sold t-shirts as fundraisers.

STUDENT COUNCIL SPONSORS

Student Council sponsored two new activities this year, the road rally and the teachers' appreciation breakfast.

The road rally in October began at school and ended at Shakeys Pizza. Due to the success of the road rally, it will possibly become an annual event.

At the teachers' appreciation breakfast in the cafeteria, student council served doughnuts, milk, juice and coffee to the staff.

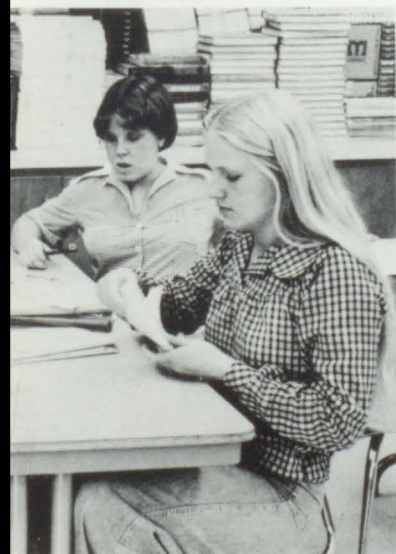

Regular activities sponsored by Student Council were basketball and football homecomings, SOS junior olympics, and the movie "Towering Inferno."

LATIN CLUB PREPARES FOR SPECIAL WEEK

The biggest event of the Latin American club was the Latin History week, May 8-12. It included a dance and a faculty luncheon.

Other activities were a visit to Lake County Handicapped children's school, a dance marathon, and an inter city Latin American cotillion.

The Latin club was sponsored by Mrs. J. Williams and Mrs. R. Justo.

Officers were Christine Luna, president; Lala Perez, vice-president; Theresa Torres, treasurer; and Francis Reynoso, secretary.

ETHNIC CLUB UNITES CULTURES

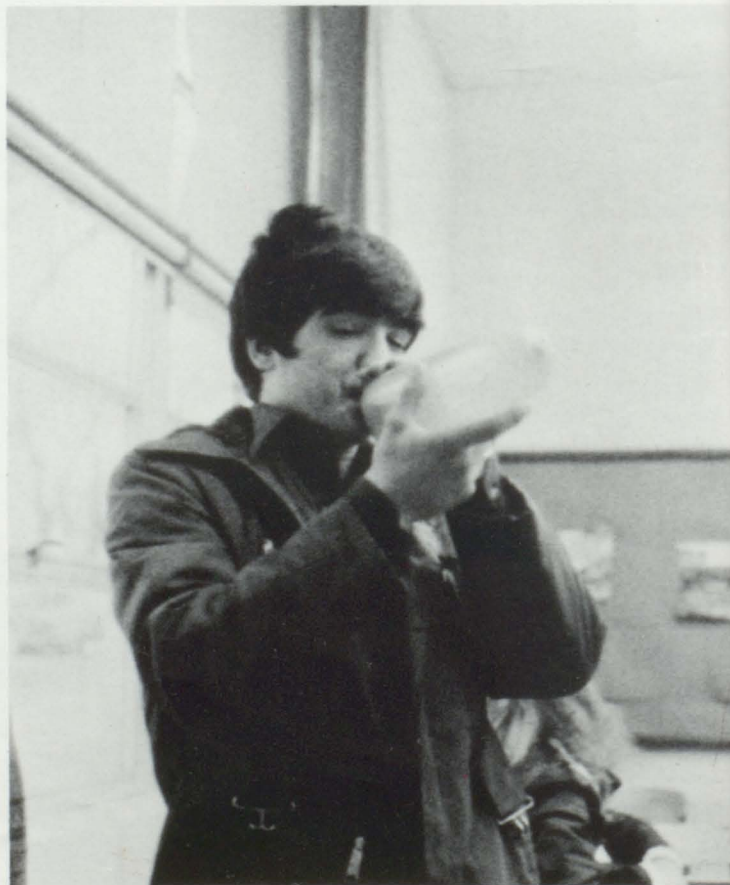

"Zdravo! Kako si? Tikanis! Ka'a," are phrases from ethnic languages that the Ethnic club consists of. Students of Serbian, Greek, and Macedonian decent form the club to get students interested in their backgrounds and to get them to preserve their national assets.

With the help of Steve Dimikis President, Tammy Dovellos Vice President, Beba Galanos Secretary, and Tina Margaritis Treasurer, the club organized two bake sales and four candy sales. The funds that were raised were used to pay for field trip, ethnic dances, and club pictures.

Meetings were every Wednesday immediately after school.

Matmen Take Down City

The 1978 Grapplers had little trouble taking over the city as individual stars wrestled to victory.

Senior Mark Hamilton, captain at 185 pounds, worked his way through the city and sectionals finishing up with a 9-1 record and 2 titles to his credit.

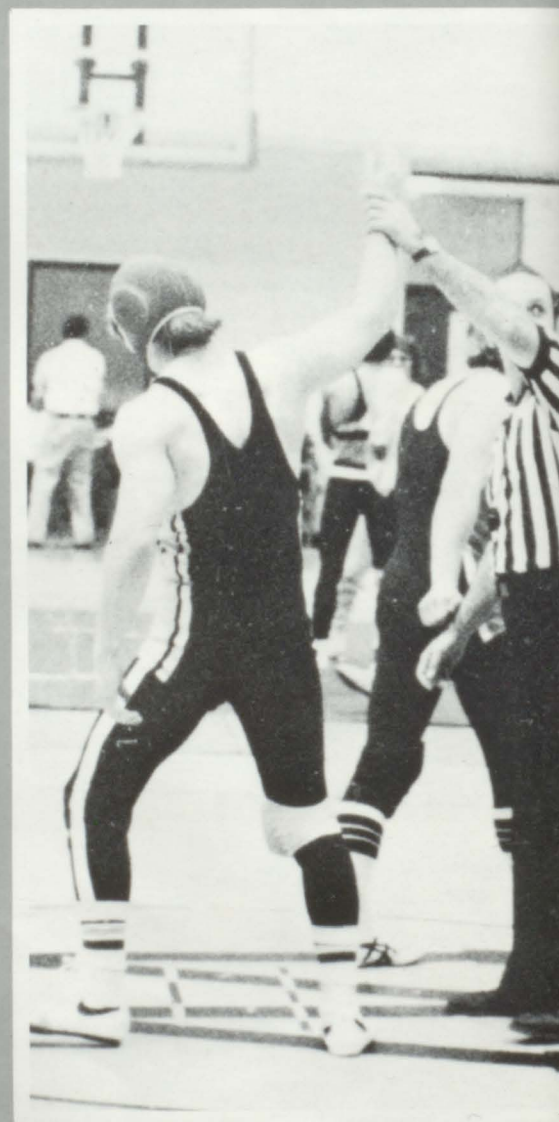

Junior Skip Schultz also starred this season finishing with 9 wins and 1 loss and 2 titles to his name.

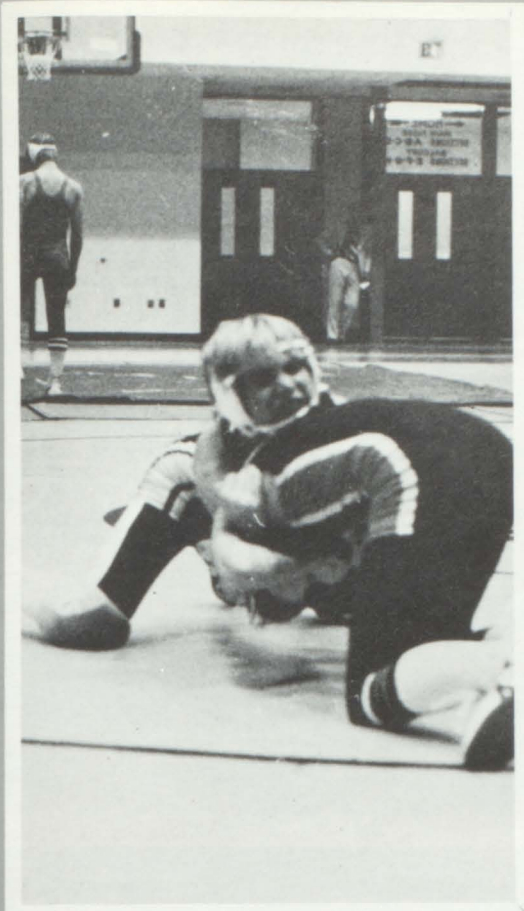

The team on the whole was a well balanced strong team led by first year Coach Pimental.

John Troutman was quoted as saying, "He did a great job and we hope he'll be around a long time."

Coach Pimental was proud of his team and knows they will be just as strong next year.

Hornets Capture 5th Conference Crown

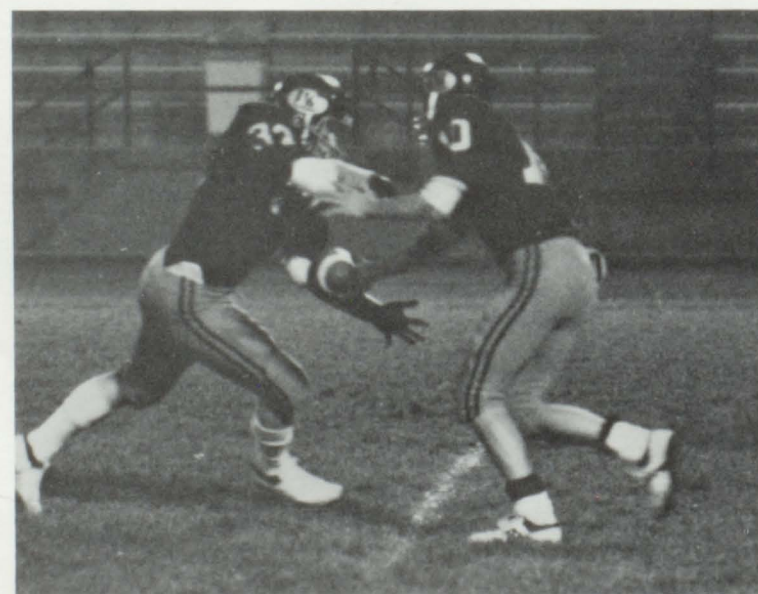

The Hornets proved awesome as they captured their 5th straight conference crown.

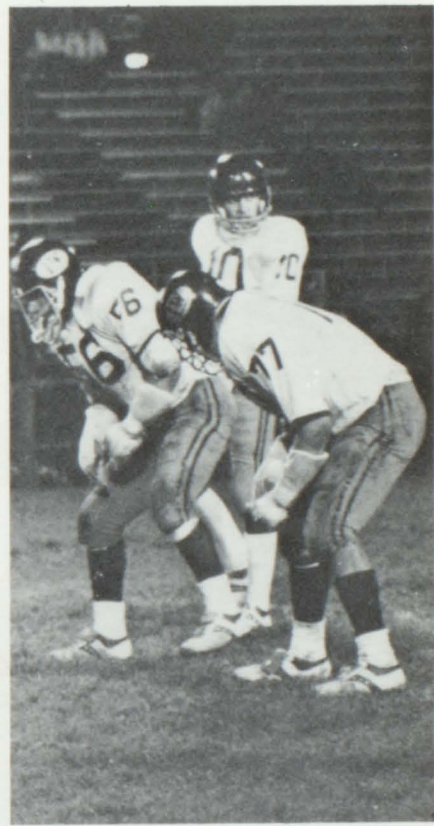

The Hornets started the season off with a win over the Calumet Warriors placing Bill Hedgepath as offensive player the week. The Hornets then ventured to Merrillville to play the returning state champs and lost a heartbreaker in front of 7000 people 7-6. Kelvin Dixon scored the only Hornet touch down on a perfectly executed counter-option. Bill Hedgepath again came through as player of the week this time on defense, as he piled up 32 tackles.

Homecoming proved not to be as festive an occasion as it was meant to be as the Hornets lost to the Munster Mustangs. The Hornets full of revenge, beat their arch rivals the Hobart Brickies at the Brickie homecoming with an outstanding performance.

The Hornets out of playoff contention decided to win their conference championship outright and did so by beating all their conference rivals by decisive margins.

Hornets Place 3 Backs On State Squad

Senior Tailback Kelvin Dixon cut his way to first team honors by gaining 865 yards in 92 carries for a whopping average 9.6 yards per crack.

Backfield partner Bill Hedgepath wasn't far behind as he placed second team on the All State squad bulling his way for 921 yards in 105 carries for an 8.8 average yards per carry stat.

Senior Stu Schultz was the only defensive back to place on the all state 2nd team squad with 45 tackles, 90 assists, 6 interceptions and 7 touchdowns from his strong safety position.

Spikers Finish Over .500

The girls' varsity volleyball team had a successful season by finishing over the .500 with a 7-6 record. "My Seniors Holly Webb, Rose Bristow, Trish Gourlay, and Cindy Beeler", said Coach Janis Qualliza, "dominated the squad as did Tracey Pest and Sharon Llamas, both Juniors."

Pest's fireball serve dazzled many opponents and scored point after point for the Hornet girls. Webb's powerful spikes and her ability to block the opposition's spikes was certainly a plus for the team. The girls finished second in the conference with their only loss being to Roosevelt.

Cagerettes finish season at .500

The Varisty girls basketball team showed great spirit ending at .500. Coach Janis Qualizza said she had a young team with only 1 starting senior. The team was well stocked with freshmen and sophomores making Miss Qualizza optimistic about next year. She says, "Next year will be great with all my returning starters such as MVP for '78 Tracie Pest and my little hustler Renee McCloud."

Reserves Finish Under .500

The Reserve girls basketball team showed their inexperience as they finished at 5-7. The reserves will have to show more strength to move out this year's rugged varsity squad. Coach Qualiza says the major reason the reserves had a losing season was because she was the only coach and had to spend all her time with the varsity. She knows that next year they will improve as they move up to the varsity level.

Pest, Corbin Lead Team

The girl's track team ran into trouble as illness and lack of practice brought them to a 1 and 12 record. Softball thrower Tracie Pest and long jumper Candace Corbin tried to hold the team together as Tracie took 8 first places and Candace qualified for the State finals.

Swimmers have Rebuilding Season.

The swimmers, struggling through a 2-8 season, show some promising stars for the future. With a turnout of about 30 mermen and an all summer swimming program the Hornets really have a lot to look forward to.

The all summer swimming program being used is comparable to those used at other schools that excel in swimming. Coach Steve Parfenoff explains that "this program regardless of our lack of depth, will improve our program immensely." "Also," stated Mr. Parfenoff, "by finishing third in the city will be enough incentive for the returning mermen to try harder."

Junior Joe Benjamin broke a school record set in 1974 by Mike Rayson in the 500 yard freestyle. The old record of 5:45 was shortened by 5 seconds to 5:40. Other promising swimmers for the Hornets are John Benjamin, Kevin Brunski, John Yorko, Kerry Van DerGiesen, and Sonia Alfonsi.

Capturing conference championships, ending with a 12-5 record and netting a sectional kept our netmen busy this season.

Winning the singles conference championship was Miroslav Jaksic. The doubles conference championship was taken by senior Mark Bernat and junior Brian Peters. These two also captured the sectional doubles championship.

The team had quite a record this year, and work for this record started on August 15 with long, hard practices. Meets were held through September and October.

Batmen Fly Into Action

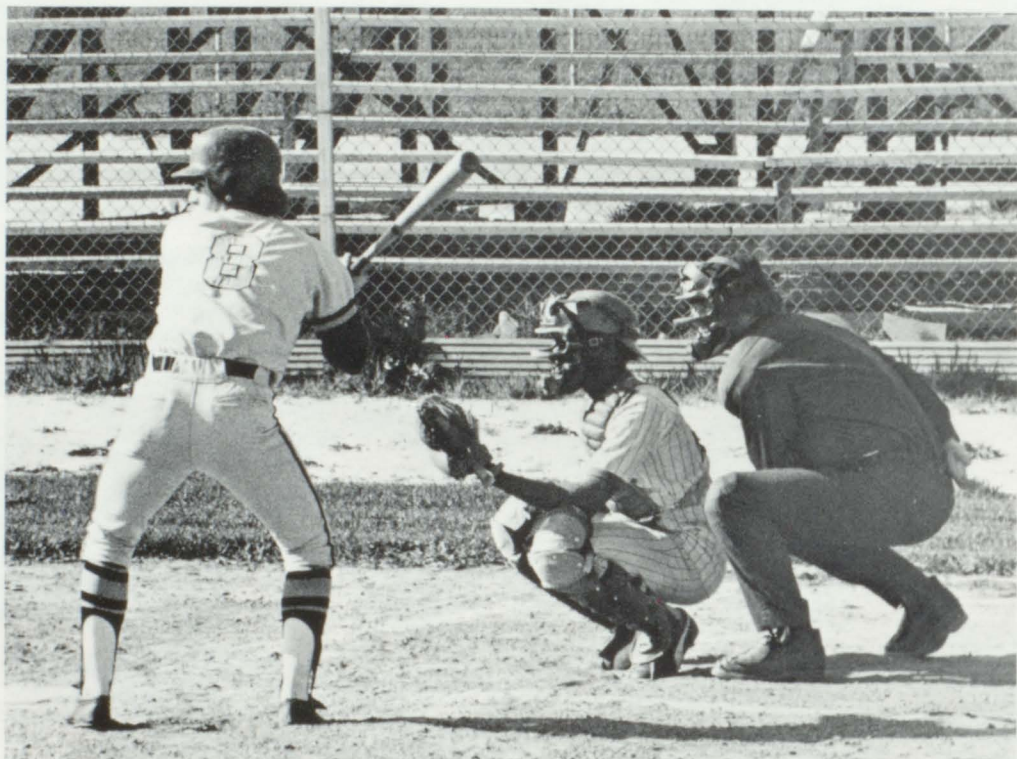

The 78 baseball team, due to brilliant pitching and fielding, finished with an outstanding season.

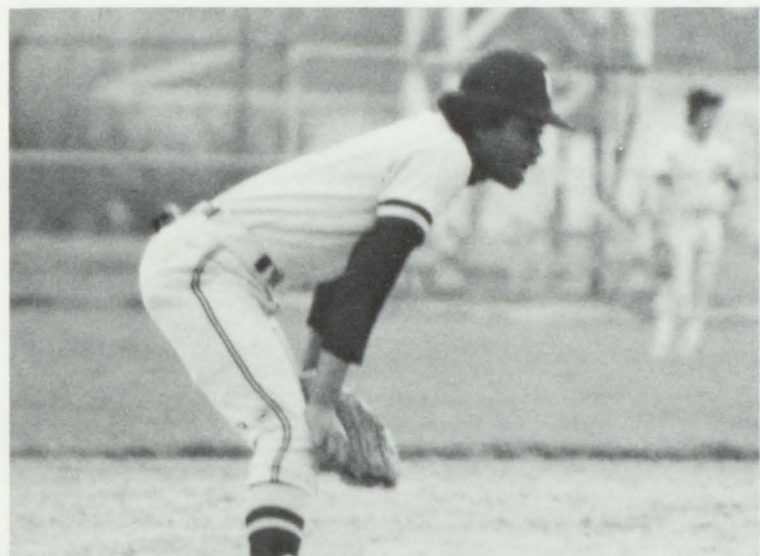

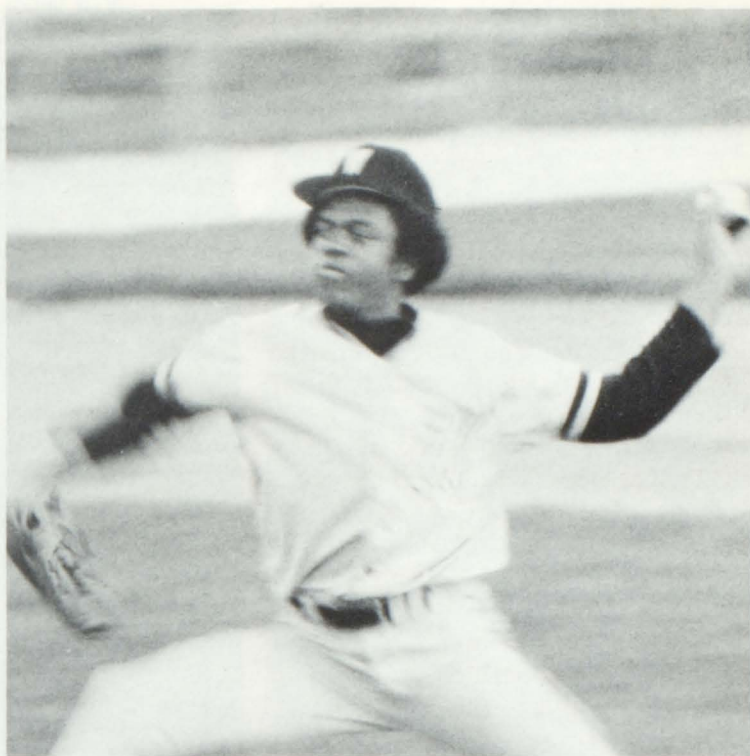

The season was highlighted by Freshman pitcher Glenn Carter who pitched a no hitter in his first start.

Base running was also a Hornet strong point as senior Donald Tipton came up with 15 stolen bases.

The Hornet's main strength came from the outstanding fielding of returning most valuable player Dave Kaczmarski, Stu Schultz, Donald Tipton and Jody Fattore.

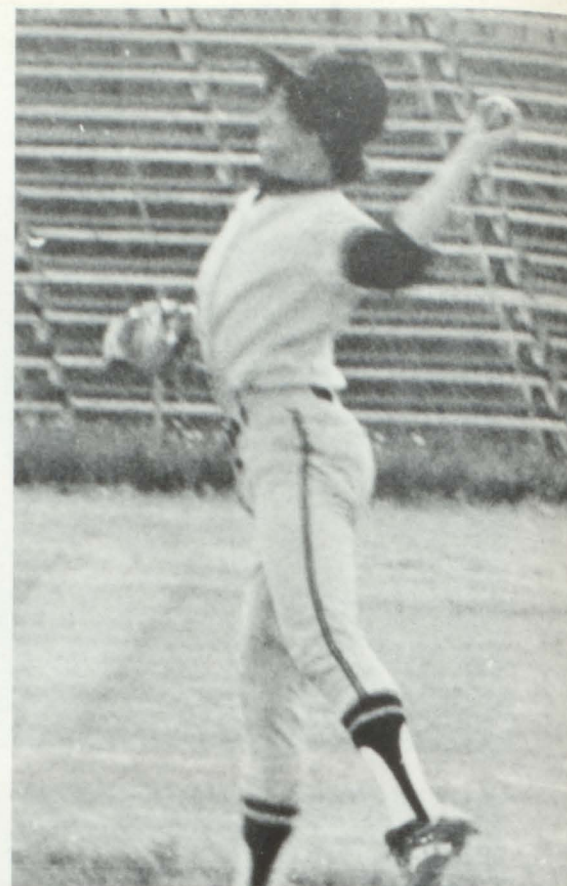

Coach Nick Day looks optimistically towards 79 as he only loses two starters in left fielder Stu Schultz and shortstop Donald Tipton and 1 pitcher Dale Polster.

The 78 Reserve Baseball team finished up early with a respectable season. Players such as outfielder Jeff Randle, catcher Joe Saffa, and short stop Jim Henning, gave Coach Russell something to smile about as they wound up with a record of 9-1. The season was short due to bad weather.

Coach Jennings on . . .

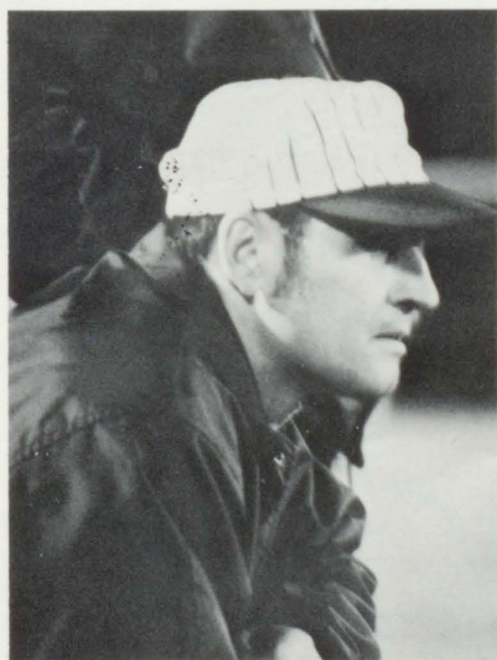

The era of Coach Michael Jennings as head football coach has ended. After leading our team to six of seven conference championships, Coach Jennings is leaving Lew Wallace. He hopes to find a bigger challenge at Chesterton High School.

Coach Jennings, a Wirt honor graduate started his career at Texas A&M, where he received his Bachelor of Science. He then transferred to South Western Missouri State University. He took up his football career at SMSU as fullback, while earning his Masters of Science. After graduation, he accepted his first coaching job at Lew Wallace as head Cross Country coach. During that first year, he captured the Northwest Conference championship. Coach Jennings then went back to his first love of football. He was head football coach for seven years, and six of those seven he led our team to conference championships. In the last five years he won 37 of 50 games.

When asked his feelings on leaving, Coach Jennings said he had mixed emotions.

Cagers Court

Catfish Hopden

The 1978 Basketball team gave little to cheer about as they wound up with a 6 and 16 season.

The cagers season was sparked by 2 stars in Senior Jeff Hurst and Junior Darryl Goosby. Jeff Hurst led the Hornets in rebounds with 190 and was high scorer in 13 of the 22 games. Darryl Goosby was the teams biggest and the conferences littlest center. Coach Bill Kukoy says, "What Goosby lacks in size he makes up for in hustle." Goosby proved this by hitting 247 points and snatching 173 rebounds.

Stars Jump Forward

Coach Kukoy says he is looking for his finest year next year as both his Freshmen and reserve teams had outstanding seasons. Kukoy is pleased to be bringing up two fine freshmen in Larry Jones and Glen Carter. Coach Kukoy also says there are two fine reserves to watch in Reggie Tillman and Carlton Crummie.

Coach Kukoy is also pleased in his returning players especially starters Darryl Goosby and Chuck Albrecht.

Above left: Chuck Albrecht brings the ball down court. Above middle: Jeff Hurst wins the jump ball. Above: Darryl Goosby fights underneath against Merrillville. Left: Michael Fleming takes a desperation shot. Above: Paul Clinton takes one of his patented jump shots.

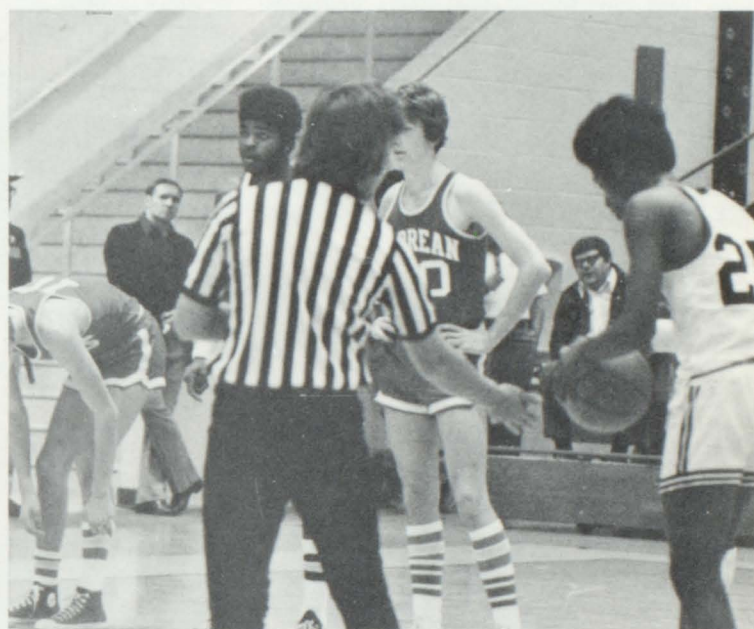

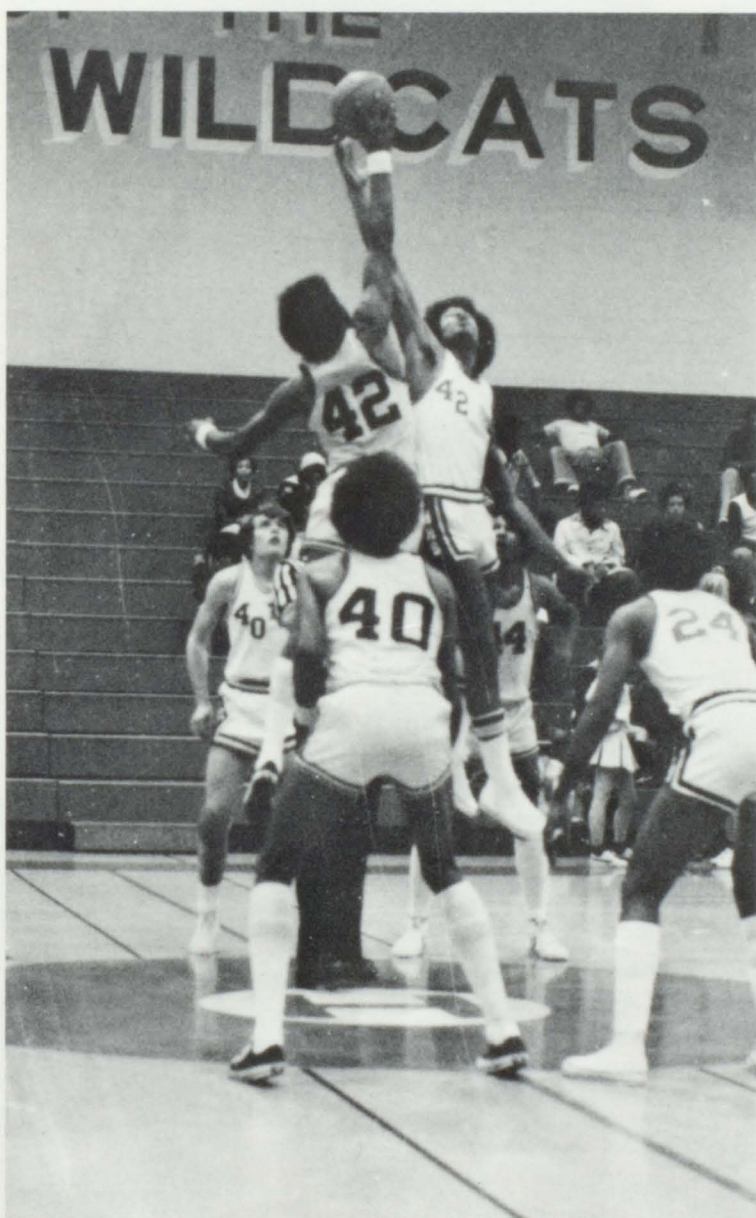

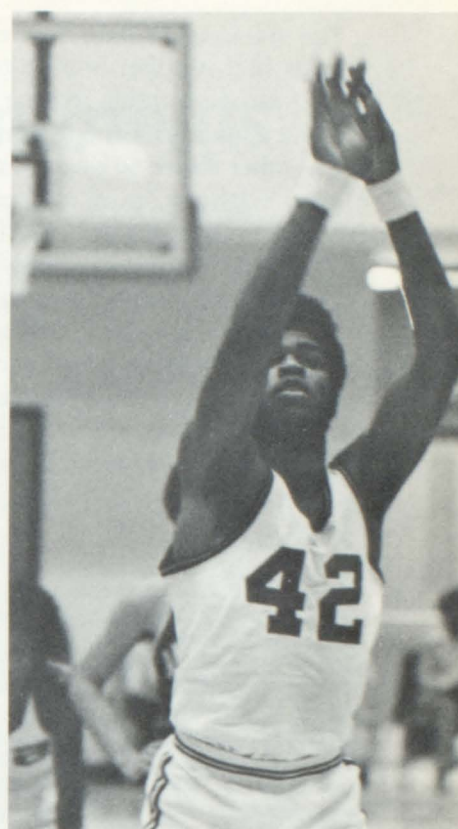

Due to academic trouble the reserve team became ineligible midway through their season. The Freshmen team was then moved up to fill the shoes of their more experienced upperclassmen.

The reserves' short season was highlighted by such performers as Reggi Tillman and Kevin Thomas. The reserves played to an 8-2 record before the team became ineligible. The Freshmen, who had already finished their season with a Conference Championship, then jumped in to round out the reserve season at 17-4.

With the play of 6'4" center Louis Stefanovich, and Glenn Carter, the freshmen had little trouble this season as they went 8 straight games without a loss. The Freshmen played the city tournament and swept first place honors. The Freshmen then ventured to Andean to play in the holiday tournament.

Reserves Flunk Out; Frosh Take Over

The Freshmen had no trouble taking first place honors there also.

But the Freshmen season had just started as they not only finished their season with a fine record but helped the reserves to do the same.

Coach Chaney praised the team as he said that he was proud of the team because they not only said they were good but went out and proved it.

The track team had a disappointing year as bad weather and attitudes kept them from performing to their potential. The track team had only two meets with the weather above 60 degrees and only 4 meets without rain. Runners also seemed to lose interest as the season grew longer making spirits low. The team's only high point came as during an indoor meet, not one but two Hornet speedsters broke a state record in the 100 yard dash. George Horton and Kelvin Dixon ran neck and neck all the way to the wire to break the old record of 6.3 by 1 tenth of a second setting their own record at 6.2.

Track Runs Through Disappointments

Mistakes make merriment

The world of athletics is not always the hard work, no play world it is stereotyped to be, as demonstrated on these two pages. Athletes are known to take short time-outs to amuse themselves.

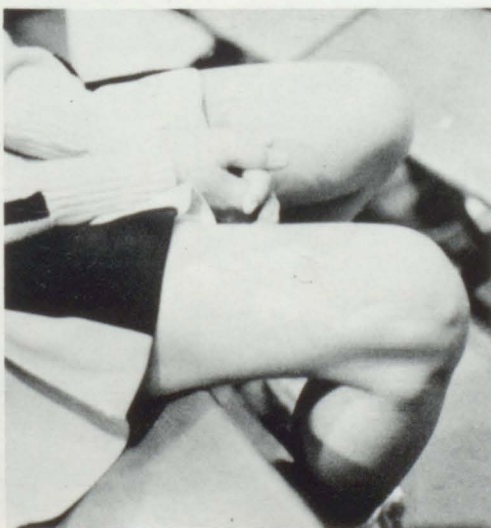

Athletes also have a language of their own. This language can be heard in the locker room on game nights, in the hallways, or in the classrooms. Now for an insight to what the jocks are talking about: **ROACH**—things found lying in Mark Bardeson's locker or things found running from Tony Patterson's locker. **SAMICH**—thing mooched for by Alan McCoy for lunch (meaning Sandwich).

Above left: Coach Ward's reserve players ignore his discussion of the game plan. **Above right:** Jeff Hurst hides his cheat sheet. **Right middle:** Bill Hedgepath takes a ride on the Roosevelt Express. **Right:** William Chester shows how hard it can be to walk and chew gum at the same time. **Above:** Reginald Richardson plays helicopter with his pole.

SNUGI—Pain inflicted by one pulling straight up on the back of another one's shorts. **SWEET WILLIE**—used to describe one's father (usually Tony Patterson's). **PLAY IT OFF**—phrase said to person making any mistake of any size. **FIRE UP**—athletically used to describe getting ready for a game (has other unmentionable meanings). **TWINK OR DINK**—terms used to describe players of a lower caliber (Merrillville, Hobart, etc.). **GET IT UP**—meaning get clapping and fire up for pre-game cal. **KACZ**—word describing one very mean, hostile, Tazmanian Devil, known as David Kaczmarzski to the Polish world. **DIGGIN**—yelled when someone is caught putting their finger in either nostril.

Top: Holly Webb demonstrates how to block a spike with your eyes closed. **Middle:** Coach Kukoy's players' minds wonder as he discusses strategy. **Bottom:** Ron Makis loses track of the game and focuses on more important things.

Managers Play Important Role

Managers and Statisticians are as important to a team as the actual players. They have to come to every practice prepared to do their respective duties.

Managers have to keep all equipment organized and administer minor first-aid to the athletes.

John Hannah and Frank Venturella have been basketball managers since they were freshmen, and Nancy Schutz and Tracie Samson have been football managers for the past two years.

The swimming timers are very important because they time each swimmer. Frequently a school or a state record may be at stake.

Baseball and basketball scorekeepers keep the game records clear for the newspaper articles.

Other managers not pictured are basketball: Jim Drossos with Kelvin Dixon, Jeff Randle, and Ron Makis as statisticians; Sonya Stiff and Beverly De Arman, football; Debbie Reid, track; Barry Mills, wrestling; Jose Vasquez and Ben Serano, baseball; Brenda Benedict, Karen Winchester, Sandy Singer, and Stephanie Wilson, girls basketball; and Yolanda Stiff, Denise Mosley, Bettina Chavez, Cindy Stuebig, Mila Matan, Linda Davis, Beth Bishop, and Sue Tkacs, swimming.

Below: Front row from the left: Beverly De Arman, Alexandra Tomich, Tanya Kasich, Milena Arstovic. Back Row from the left: Sonya Stiff, Brenda Benedict, Tammy Dovellos, Diane Capp.

Golfers Sweep Conference

The golf team surged to a tremendous season by winning the conference and placing a fourth in the golf sectional.

Led by Junior Frank Venturella, who was voted the top golfer by averaging a score of 41, the team successfully ended the season with a 13-8 overall record and a remarkable 10-0 conference mark.

The golfers also won the City Championship Tournament which marks the third consecutive year that they've won the crown.

Following Venturella, other top golfers were John Hannah, Dave Pashkash, Rich Moskovich, and Rick Smurdon.

All by Myself!!

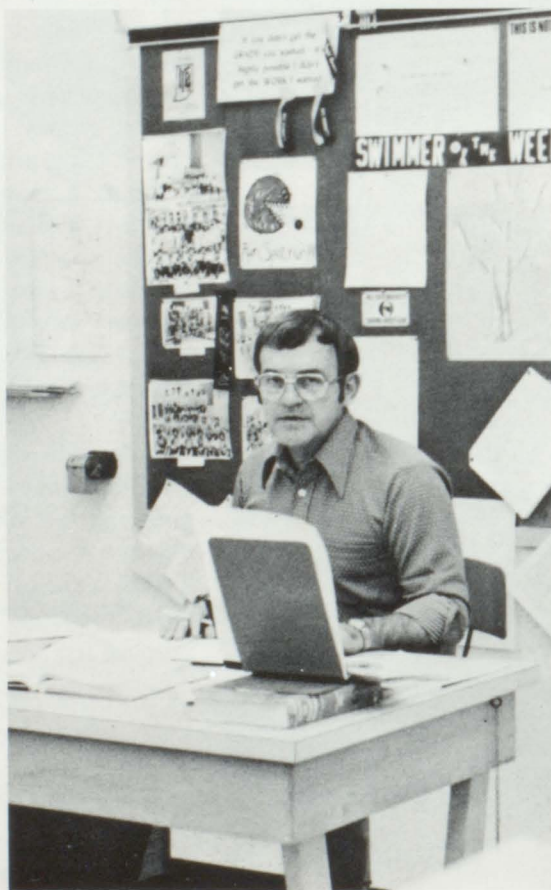

Kung Fu and motorcycling are two individual sports that two of our students have devoted much time and effort to.

Junior Richard Payne has been a Ling Woo Pak Dar artist for eight years. Ling Woo Pak Dar is better known as Chinese boxing. Richard says that this art is part of his life and takes hard grueling practices everyday. He is a green sash in Chinese Boxing and a blue belt in Karate.

Riding a motorcycle may seem easy, but just like any other sport, it takes practice to become a pro. Junior Rick Forrest is a very good cyclist. He can do the ever popular "wheelie" with ease. Rick must always continue practicing because a mistake in this sport can be deadly.

In the top sequences Richard starts by exhibiting his relaxed positions, then he goes into the attack positions, and finally into the deadly kick position.

Rick picks up speed to go into his exciting "wheelie" and comes down to prepare for another one.

Flying Time

Four Years

Seniors dunk the Brickies ... Juniors win spirit stick ... Sophomores await third year ... Freshmen accept new challenge ... Teachers make flight plan ... Administration disciplines and enforces policies ... Seniors have final exams and headaches ... Juniors capture spirit week ... Sophs win Donkey ball ... Frosh take off ... Faculty guides students ... Custodians make clean sweep ... Kitchen cooks up a storm ... Security keeps school safe ... Guidance counsels students ... Faculty wins basketball game ... Aides assist teachers and pupils ... Secretaries keep us informed ... Nurse caters to flu epidemic ...

We Are The Champs

Nearing the end of our journey, we shifted gears into automatic pilot, enabling us to devote our time to making our senior year the most fulfilling. We were the passengers being piloted by president Mark Reid and co-piloted by vice-president Sherrie Garth. Our flight attendants were secretary Laura Chillemi and treasurer Stacy Williams. They planned our course, and guided us smoothly through a year of excitement.

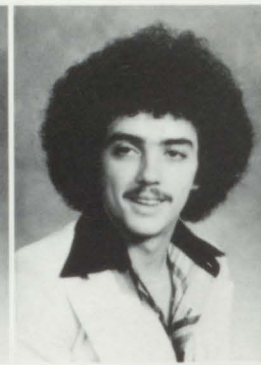

In the fall of 77, we shared the suspense as Gladys Castillo was crowned football homecoming queen. Paula Clinton, the reigning basketball queen watched on as the Seniors won the float competition with the theme, "Dunk the Brickies." When Prom approached, seniors were buzzing with plans for Don-key basketball which provided lots of laughs, as well as funds for the Prom.

Things have changed. We no longer need to be with a group to feel important, because, we as individuals are important. With graduation, we made a giant step from childhood to adulthood. After approximately 13 years of hard work and determination we are ready to face the unforeseeable future.

Juniors face success

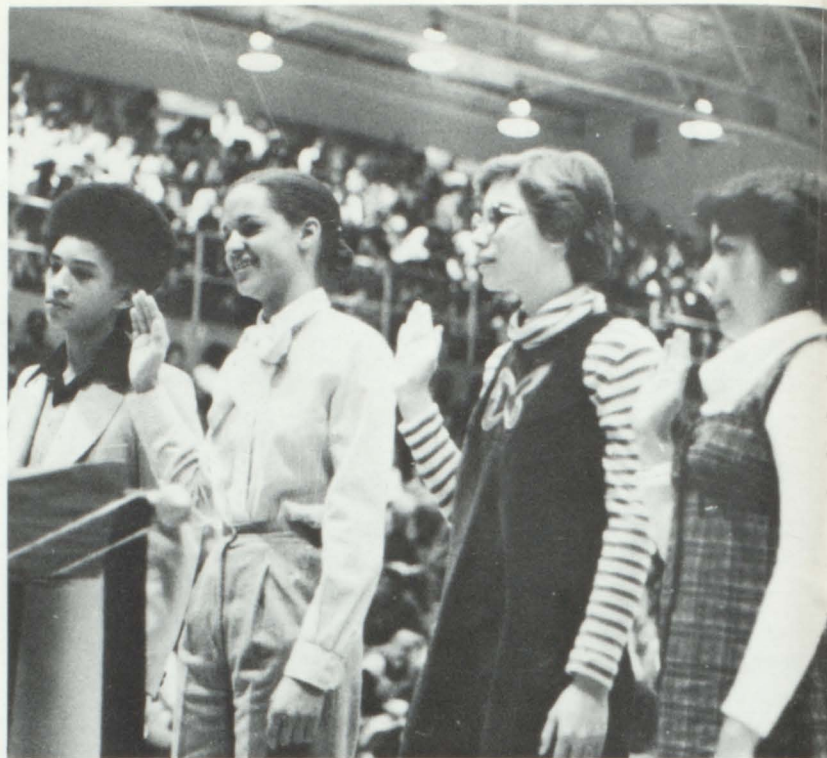

With three years down and one to go the class of '79 made the best of their Junior year.

With classes like U.S. History, Algebra II, and English, plus College Board Tests and PSAT, SAT, and ACT, 437 Juniors were kept busy studying hard. The third year veterans took time out from all of their studying to win the football homecoming float competition with "Ride 'Em Hornets". They also won the Spirit Stick competition.

The Junior float for Basketball homecoming "Bake the Brickies" didn't fare as well as football, but the excitement built up as everyone awaited the crowning of princess Adele Arciniega.

With homecoming over, the juniors turned their attention toward Spirit Week. Class officers Carl House, President, Kathy McDonald, Vice President, Alice Hernandez, Secretary, and Beth Bishop, Treasurer, along with fellow classmates were busy painting murals and making other decorations along the theme of "Don't Touch That Dial".

The Class of '79 can now move toward the thrill of being Seniors.

Sophomores Take Off

Giving speeches, determining the degree of angles, studying genes, writing poems and correcting grammar problems was how most Sophomores spent the year.

Class President Bev Fernandez, Vice President Rhonda Kaplar, Secretary Tammy Dovellos and Treasurer Steve Wisneski kept their class even busier working on football homecoming. The final outcome was a float entitled "Whip the Mustangs."

The coming of basketball homecoming brought more fun and excitement for the class of '80. Their mini float depicted a bear sitting tall on a wagon. The theme was "Hornets Can't Bear Defeat." The highlight of the evening came when Dedria Dilosa was crowned class princess.

Selling candy and dressing up as monsters along with turning the hall into a Haunted Hall, were events the Sophomores shared during Spirit Week.

The Sophomores won the first Donkey Basketball competition between the classes. As The Sophomore year ended the thought of next year and being upperclassmen filled everyone with hope.

Freshmen Challenged

Co-ed gym classes, football and basketball homecomings, Spirit Week, and many other new challenges faced the Class of 1981 this year.

The Freshman Class proved they could handle the big change High School life brings. Their first encounter was football homecoming, at which the Frosh showed the upperclasses their creative talents with their float entitled "Hornets Never Die".

The Freshmen came in a close second in the mini-float competition for basketball homecoming with the theme "May the Force be With You".

For Spirit Week the Frosh decorated their hall to the theme of "Babes in Toyland".

With the first year under their belt and the greenness worn away, the Freshman can look forward to a more experienced Sophomore year.

Freshman class officers Treasurer Bettina Winters, Secretary Michele Johnson, President Revaldo Smith, and Vice President Becky Fisher are sworn in by Student Council President Tammy Wislo.

The Class of '81 proudly displays its first of many floats to
come, entitled "Hornets Never Die"

Teachers Plot Flight Patterns (try to say that one ten times!)

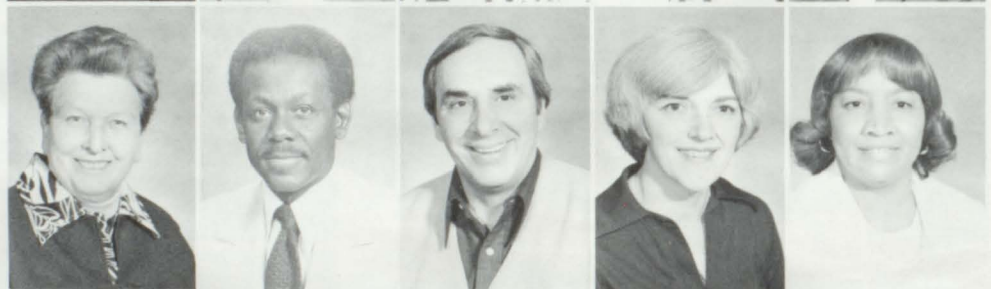

Teachers, as flight instructors, prepare the lesson flight plans, help students to execute them, and in the end, evaluate the students' work. They attend navigating sessions to discuss more efficient air control within the premises of the Hive. Faculty members take extra classes to further their flight experience and participate in Hive activities ranging from assemblies to dances. Dealing with Hornets who do not finish their daily tasks and who constantly leave the Hive without permission can make a teacher's job extremely tedious. To relieve them on their stinging pressures, staff members take time out for a quick cup of tea and some sweets at the monthly Faculty Teas. What would a normal school day be without teachers directing students through the buzzing mazes of the Hive?

Mr. Molchan, chairman of the Guidance Department, along with six other counselors, work with students and try to help them solve their problems. The students fill out appointment slips and make sure to meet with their counselors to discuss their progress. Programming is the biggest and most important job of the year. The students are divided among grade levels and homerooms so that counselors are aware of their progress throughout the years. The Guidance Department invites colleges and military schools to talk to students about admissions. They encourage students to further their education.

Counselors aid students

Top: Mrs. Upshaw helps a student arrange her schedule for next year. **Middle left:** Mrs. Shultz makes an important phone call concerning a Christmas basket for a needy Lew Wallace family. **Middle right:** Mr. Taylor checks through some scheduling information for the grade schools. **Above:** Mrs. Von Horn "takes five" to prepare for her next Senior Interview. **Above right:** Mr. Freitag assists a student in filling out a college application. **Right:** Mr. Chidsey explains the requirements for a state scholarship to an interested student.

Security provides for safety

Security was brought into the school to maintain a safe environment. The head of security inside the building is Mr. King, Assistant Principal. Three security officers are policemen. They work outside the building, dealing mostly with outsiders. Four supervisory aides work inside the building, patrolling halls and checking hall passes, washrooms, and truancies. These two groups work together to protect the student body and assist the staff. The main problem they deal with is loitering in the halls and in the washrooms.

Top left: Mrs. Mesich expects all students to produce a pass. **Top right:** Laura Austin checks alcove traffic. **Middle:** Dan Kvachkoff and Officer Carlos Rivera file an arrest report. **Far left:** Sharon Duncan stands guard on the first floor. **Left:** Officer Chad and Tom Houston take time out to eat some lunch.

SUCCESS DEPENDS ON GIRL FRIDAY

The office secretaries are the foundation of the school. The school could not function without their skills and efficiency. Typing, filing reports, checking attendance, and ordering supplies are just a few of the various responsibilities of the secretaries. These are the secretaries performing their duties. **Top left:** Mrs. Brodar. **Top right:** Miss Sakes. **Middle left:** Mrs. Wilson. **Middle:** Mrs. Skinta. **Middle right:** Mrs. Hayes. **Above:** Mrs. Pieroni. **Right:** Mrs. Brown. **Far right:** Mrs. Vance.

COOKS, CUSTODIANS MAKE A CLEAN SWEEP

The cooks and custodians are the unsung heroes of the school, for the students do not actually see what they do "behind the scenes". Both groups felt the pinch of the energy crisis when there was no hot water and when meals had to be served on paper service. These are some of the cooks and custodians performing their much needed services.

The 1978 QB Staff

A successful yearbook depends on the cooperation of many hard-working people. The 1978 Quill and Blade Staff wishes to thank Mrs. Linda Fendley for her unending patience, creativity, constant striving for perfection, and willingness to go on even when the going got rough. Thanks also to Mr. George Kingsley, Jr. for all his great advice; to Mr. John Giolas of Giolas Studio for taking Senior, organizational, faculty, and game pictures; to Red Carpet of Indiana

School Pictures for taking Underclass pictures; to Mr. Neil, photography teacher, for contributing his ideas; and to Miss Carol Puchowski, for her cakes and encouragement. We appreciate the help and encouragement from the office staff, faculty, and administration during our sales campaigns. Special thanks to all non-staff contributors.

The 1978 Lew Wallace **Quill and Blade** is printed on 80 pound Bordeaux paper by Herff Jones Yearbooks of

Montgomery, Alabama. Optima type, medium and bold, is used throughout the book. All captions are printed in 8 pt. type, and body copy in 10 pt. type. Headlines are set in 36 pt. type, and sub-heads in 18 pt. type. Special 60 pt. Optima bold is used on the division pages, the title pages, and the cover. All other headlines are hand-set with Format type. The cover is black Vistalith, set in reverse Vista type. The endsheet is grey, standard Vista color ten.

You have now seen the **Hornet—the truly Incredible Flying Machine**—in action. We've flown together within the Hive for a whole year. Now we're each taking one step up on the social ladder. Seniors have "flown the Hive" and are expected to provide for their own life-support systems. While some are on a planned course, others have created a

holding pattern for themselves by not setting any goals for the near future. As these "space cadets" buzz off on their individual missions, whether they fail or succeed, they'll carry the Hornet influence with them "under their wings". Their home space station will always be Hive Number One.

The strong gravitational pull of Hornet

Power keeps students sticking to the Hive. Lew Wallace has created a force field that enables us to work freely within the Hive without drowning in our own honey or dealing with outside interferences. Juniors have been promoted to chief pilots. Sophomores are the navigators, with two more years of steering through space left to go. Freshmen are

the engineers, building their own ships in which to make their own future travels. No newcomers have arrived at the Hive as of yet. Upon the newcomers' liftoff in manned spacecraft to this new space station, a young generation of potential rocket men and women will have emerged.

As we, the Hornets, approach our destination, our goals no longer seem light

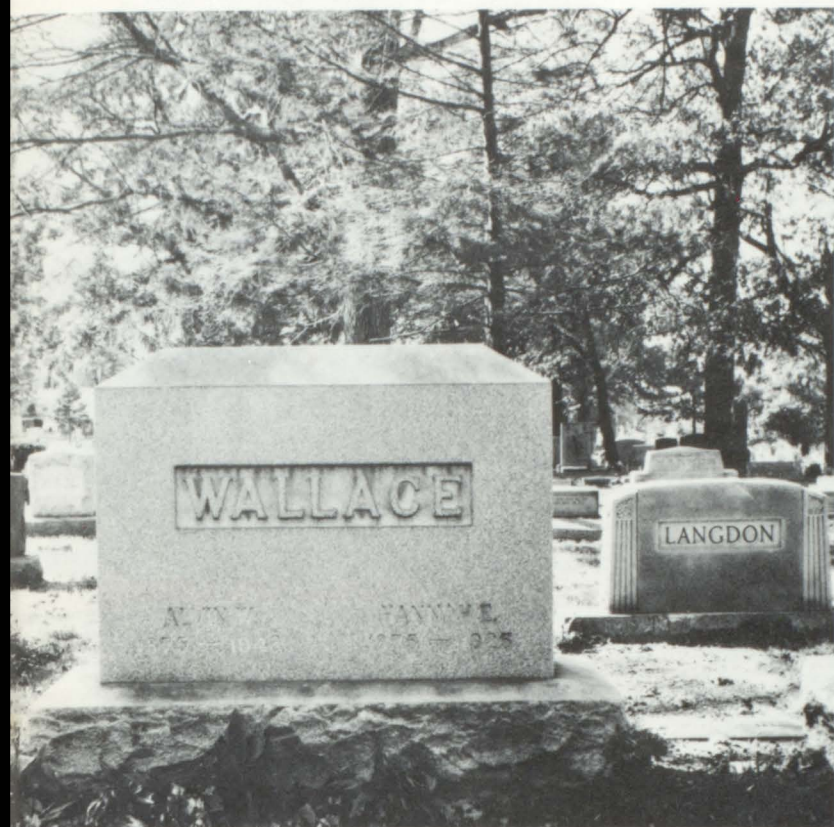

years away. The preparation here during our four-year mission has cut down our travel time considerably. Future flight patterns of the **Incredible Flying Machine** will involve jet-propelled wings and remote-controlled stingers. Travel will be faster than the speed of Hornet sound (Bzzz—)! Like the ever-changing modern human world, the Bionic Hornet

must also conform to these time-saving improvements.

The teachers, as education satellites, serve as boosters on our many journeys to explore various worlds beyond the boundaries of the Hive. We may experience a few burnouts or some dormant activity during our stay here, but a Hornet's endurance never ceases.

Bottom left: Another view of the Hive looms in the distance from the faculty parking lot. Bottom right: Henry Millard "hams it up" during the Special Olympics.

Our combustive power will fire us up and continually increase our velocity until we finally reach the stars.

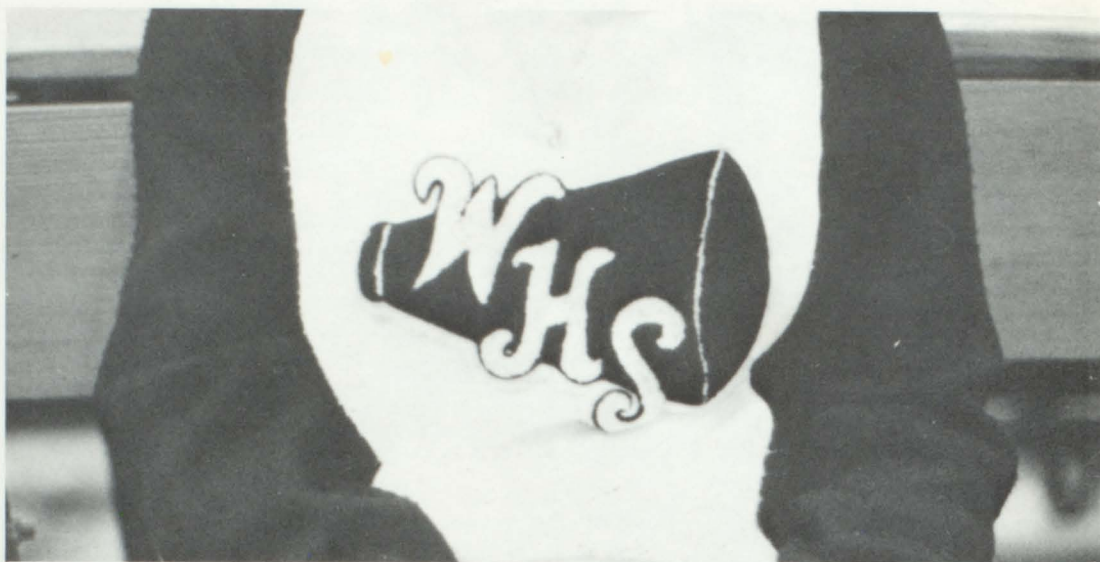

During the final school day count-down, underclassmen look forward to summer vacation. We prepare to come in for a landing to catch up on some R & R (rest and recreation).

On our re-entry into the Hivosphere for 1978-79, we'll probe deeper into the far corners of the Hornet galaxy and make new contacts. Every now and then we'll blast off in differnt directions, or else we'll just remain in orbit to catch a view from the top.

The school, or air traffic control cen-

ter, will launch a complete new Hornetary mass next year with the cooperation of the incoming Freshman Class. The Hornet community will continue to enlarge its mass in order to carry on in the future world.

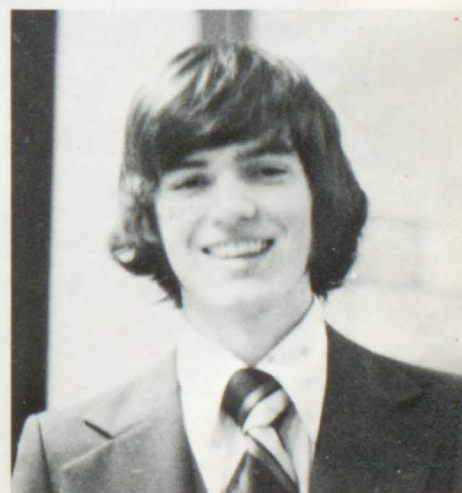

"My the Hornet Force be with you and may you live long and prosper!"
